Thank you for purchasing the Spot  
Shot Pro: Wi-Fi Scope Camera with  
Screen!

Included:

Wi-Fi Scope  
Camera

Carry Bag

1m Micro  
USB Cable

\*Spotting Scope sold separately\*

# Attaching to Spotting Scope

Make sure grips inside rotating chucks are full open.

Rotate lower rotating chuck counter-clockwise (when viewing from bottom) to open grips.

Place Wi-Fi Scope camera over eyepiece of spotting scope.

SME Wi-Fi Scope Cameras will fit eyepieces with diameters in range of 1" – 2.25"

Rotate lower rotating chuck counter-clockwise (when viewing from top) to close grips.

**DO NOT OVERTIGHTEN**

## Screen Adjustments

To maximize screen visibility in different light conditions, see below options:

1. Tilt screen downward up to 15° by pulling forward from top of screen.
2. Use screen button to adjust screen brightness while unit is ON. Continue pressing button to cycle through the following levels: 100% > 75% > 50% > 25% > OFF.

## Micro SD Card

With a Micro SD Card installed, the Spot Shot Pro Scope will save images and videos capture via the "Spot Shot Pro" App on the Micro SD Card.

Insert micro SD card while unit is OFF.

Insert with bottom facing up and the notch facing the left.

# Download the SME SpotShot Pro APP

- 1) Download the SME "Spot Shot Pro" APP from the Apple App Store or Google Play Store
- 2) Power on the Wi-Fi Scope Camera
- 3) Connect to the SpotShot Pro Wi-Fi network as you would any other Wi-Fi network. Go to the Wi-Fi settings on your mobile device and select the Spot Shot Pro Wi-Fi SSID and Password are located on the bottom of the screen for 5 seconds after the unit is powered ON. (To change the password, hold the POWER and SCREEN button for 5 seconds)
- 4) Launch the App and select Connect
- 5) Make sure you are connecting to correct network. If correct, select Proceed. If not, select Settings to change

# RF exposure statement

This equipment complies with the FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.

This equipment meets the exemption from the routine evaluation limits in section 2.5 of RSS-102. It should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.

## FCC Warning

### FCC ID: VEP-SCPCAM-TFT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

# IC WARNING

## IC: 11708A-SCPCAMTFT

This device contains licence-exempt transmitter(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

## Limited Warranty

SME Spot Shot Pro Wi-Fi Scope Cameras are covered by a One Year Limited Warranty. This Warranty covers rangefinders with manufacture defects. Normal wear & tear as well as product abuse are not covered by the warranty.

This Warranty is valid only for the original owner of the Wi-Fi Scope Camera purchased from an authorized retailer. Tampering with or altering the unit will void the warranty.

Any unauthorized service will void the warranty. Original sales receipt must be produced for any warranty service and a Return Authorization (RA) number must be obtained from customer service at **877-269-8490** prior to returning the product.
