RE: FCC ID:VFIBW95123805

Attention: Douglas noble

Please find our responses to your comments on this application below:

1. On the RSP-100 you list model number as Guitar Hero Les Paul Wireless Controller. On the label submitted you have it as the Les Paul Wireless Controller. Please confirm which is correct.

The label is correct. I have corrected and uploaded a new form
"ATCB-Form-IC-Application revised.pdf"

2. You have the 99% bandwidth listed as 1.39 MHz according to the test report shouldn't it read 1.46 MHz? Please confirm which is correct and explain why.

99% bandwidth is 1.39MHz. What you are reading on page 7 of 21 of the test report is the 20dB bandwidth. We don't report the 99% bandwidth in the report because it's only used to determine the occupied bandwidth for the emissions designator for Canada.

3. On the RSP-100 you have the unique product number as 9512380. On the label it is 95123805. Please confirm which is correct.

The label is correct. I have corrected the form. "ATCB-Form-IC-Application revised.pdf"

4. The Cover letters are signed by Lee Guinchard. The Point of Contact registered with the FCC is Stephen Withers. Please upload a letter from Stephen Withers stating that Lee Guinchard has authority to act for and in behalf of Stephen Withers.

I have uploaded a new letter. "Signature authorization.pdf"

Please note I have uploaded a photo of the label location showing the FCC label inside the battery compartment. Also the RSS-102 form I uploaded is incorrect please remove it from the application and use the form that is in "ATCB-Form-IC-Application revised.pdf"

Regards,
