Dear Helen,,
1. Please refer to the updated "1.3 Methodology" in the attached report
sheet 1 of 20 sheets.
2. We have revise the "Operation mode" in the attached report sheet 8
of 20
sheets.
     In the tesr report sheet 6 of 20 sheets 4.2 Measurement Procedure,
it
includes the explanation of three test orientation and the worst case
was
recorded.
3. Please refer to the attached operation description for your
reference.

ELECTRONICS TESTING CENTER, TAIWAN

Assessment NO.: AN07T6995, Notice#1

Question #1: The test report does not indicate which version of the ANSI
C63.4 has been used for testing. Please verify that the newest version,
ANSI C63.4:2003 has been used and submit an updated test report
indicating
which version was used.

Question #2: The test setup photos do not show any means of re-orienting
this device in the X, Y & Z orientations during test. Please explain
how
the EUT was reoriented during the testing.

Question #3: The filing does not include Operational description. Please
submit the operational description asap.

Best regards,
Helen Zhao

The items indicated above must be submitted before processing can continue
on the above referenced application. Failure to provide the requested
information within 30 days of the original e-mail date may result in
application dismissal and forfeiture of the filing fee. Also, please note
that partial responses increase processing time and should not be submitted.
Any questions about the content of this correspondence should be directed to
the e-mail address listed below the name of the sender.
