Dear Charvey,

1. Please refer to the updated "1.3 Methodology" in the attached report sheet 1 of 20 sheets.
2. We have revise the "Operation mode" in the attached report sheet 8 of 20 sheets.

In the tesr report sheet 6 of 20 sheets 4.2 Measurement Procedure, it includes the explanation of three test orientation and the worst case was recorded.

3. Please refer to the attached set up photo for your reference.

ELECTRONICS TESTING CENTER, TAIWAN

Question #1: The test report does not indicate which version of the ANSI C63.4 has been used for testing. Please verify that the newest version, ANSI C63.4:2003 has been used and submit an updated test report indicating which version was used.

Question #2: The test setup photos in the test report do not show any means of re-orienting this device in the X, Y & Z orientations during test. Please explain how the EUT was reoriented during the testing.

Question #3: The test setup photos exhibit shows internal photos. Please resubmit test setup photos.

Best Regards,
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
