Attention: Application Examiner

RE: Request for Confidentiality  
Applicant: *Abbott Medical Optics*  
FCC ID: *VGE SIGACPM3*

To Whom It May Concern:

***Permanent Confidentiality***

Request is hereby submitted by *Abbott Medical Optics* to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- **Schematics**
- **Detailed Block Diagrams**
- **Detailed Operational/Functional Description**

***Short-term Confidentiality***

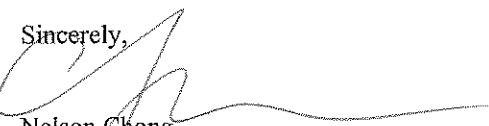

Request is hereby submitted by *Abbott Medical Optics* to withhold from public review for a period of 45 days from the date of the Grant of Equipment Authorization and prior to marketing, certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept confidential for a period of 45 days from the date of Authorization:

- Internal photos
- User manual

Rationale for request for confidentiality:

*Abbott Medical Optics* has invested considerable time and materials in research and development to produce the referenced product. Disclosure of the permanently confidential portions of this application to competitors would not only give them significant competitive advantages in developing similar products, but would also disclose successful implementation of unpublished, leading edge technology developed by us. Disclosure of the short-term confidential portions of this application during the period of importation and/or distribution would reveal key aspects of proprietary technology to competitors and diminish the value of our investments in research and development.

Sincerely,

  
Nelson Chong  
Program Engineer III  
*Abbott Medical Optics*
