Dear Lucy,  
I send the revised report .  
Please confirm as below.  
I send all document as below comments.  
Please review .

Thank you,  
Yang.

Please disregard the previous email, instead, please address following issues.  
Q#1: According to KDB 852143 Authorized Individual Policy (Form 731), only the person who is listed as the grantee contact person on FCC website can sign the agent authorization letter. As for AISOLUTION CO., LTD., the grantee code contact person is Mr. Son Hyang-mi. Please provide an authorization letter sign by him or update the grantee contact person from FCC website.

Below the authorization letter for Aisolution has also indicated LG' s contact information below Mr. Han -Jin Lee' s signature. Please remove.

-I'm sorry, I will send the revised letter.

Q#2: Please provide the complete schematic, including Bluetooth portion.

Please attached files.

Q#3: Please provide Bluetooth module's functional block diagram.

Please attached files.

Q#4: Based upon the user manual, this device is designed per Bluetooth 2.0+EDR. As stated in the theory of operation, this device is capable of operating in three different modulations: GFSK, DQPSK and 8DPSK. In the test report, there is no information on which ACL packet Type was selected for the final testing and the worse case investigation. Please address.

This device is Bluetooth 2.0 and Output power is worst at G FSK mode.

This device are going to GFSK mode only. Our engineer is checked other modes for 2.0+EDR ,but out power for other modes was small more than GFSK mode.

Q#5: Per ANSI C63.4, a hand-held device is required to be verified with three orthogonal plan es, but there are no information indicated whether the device has been investigated with three orthogonal planes. Please address.

Please see test report.

Best Regards,

Lucy
