

# Test Setup

## 1. Minimum hopping channel separation

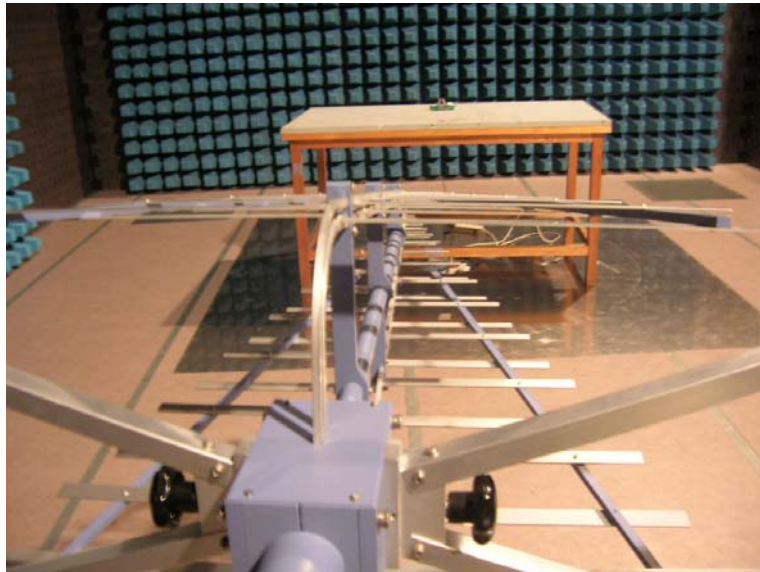

## 2. Maximum peak output power

### **3. Spurious Emission & Restrict Band Radiated Emission**

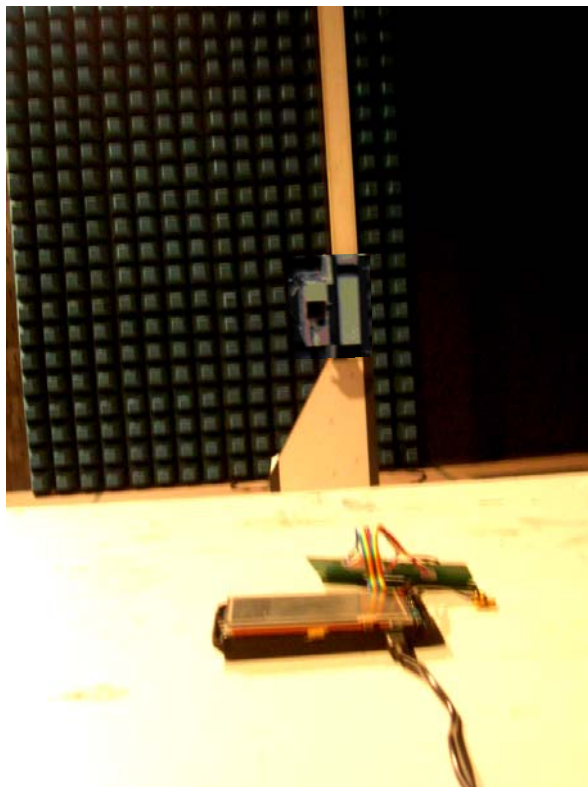

30MHz-1000MHz

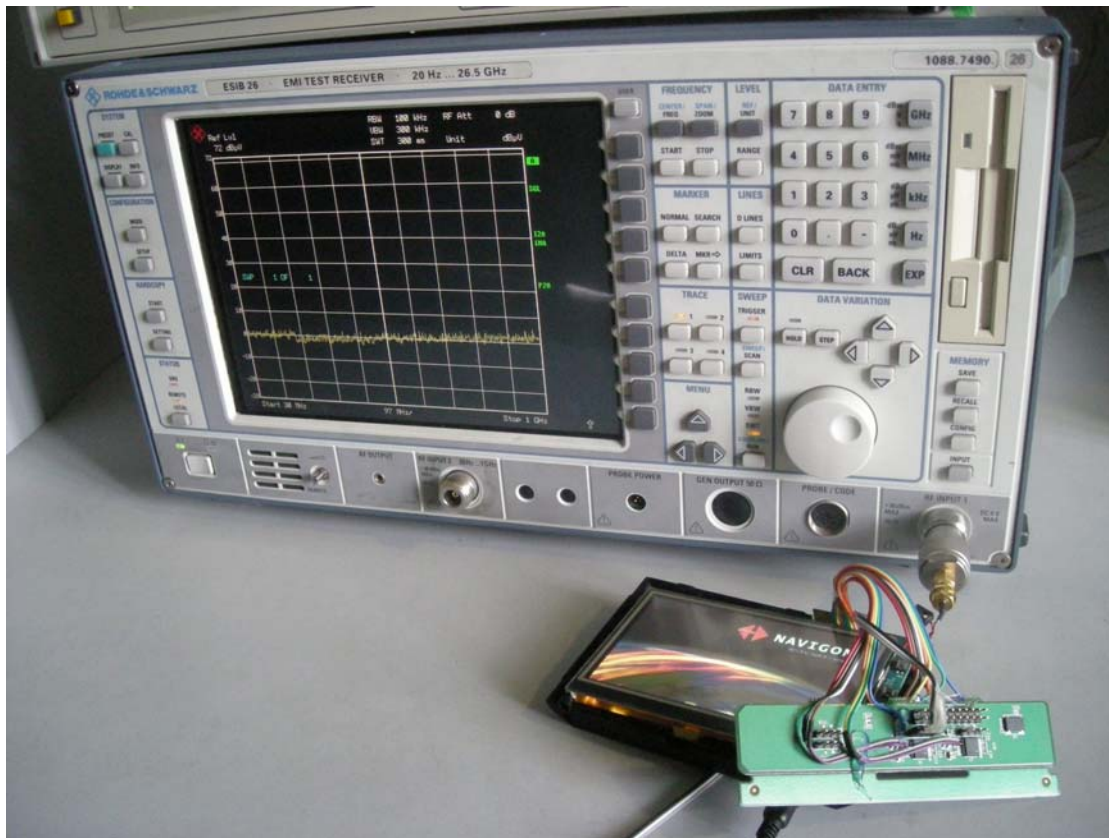

1GHz-18GHz

18GHz-25GHz

#### 4. Emission outside the frequency band

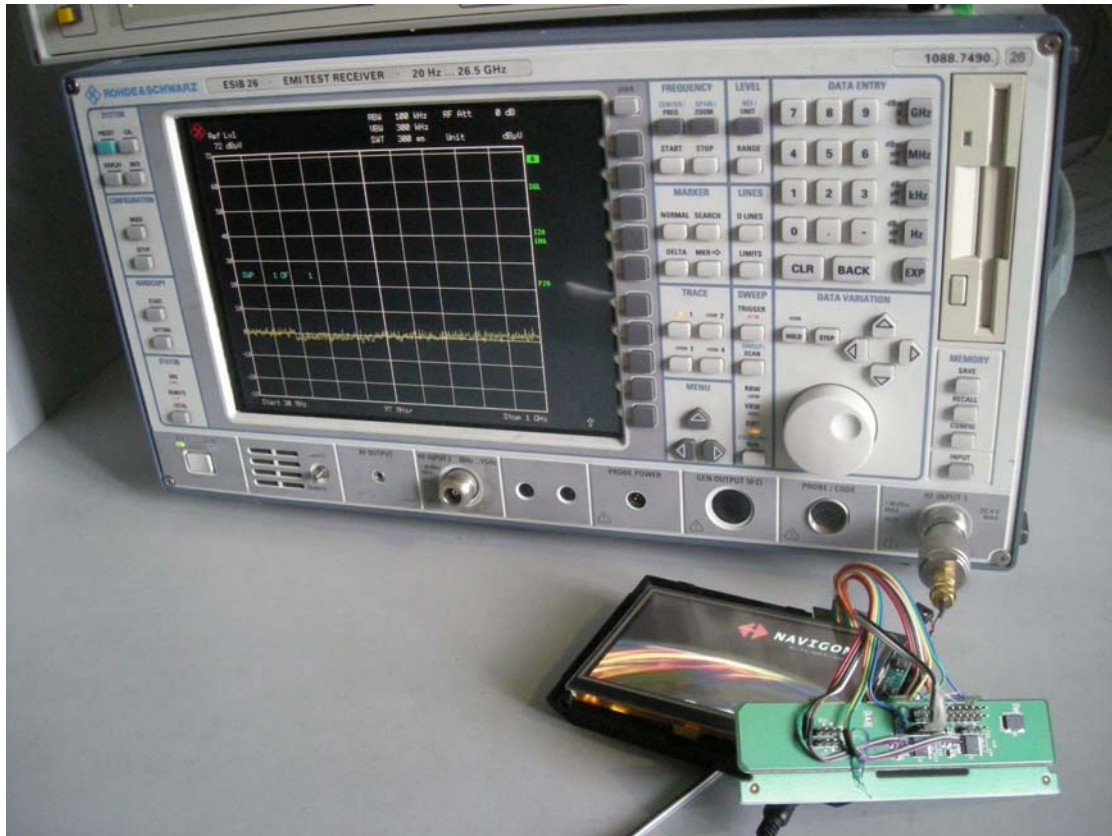

## **5. Conducted Emission**

## 6. Channel Number of hopping system

## 7. Average time of occupancy in any channel
