Tap " ⬚ " at the top-right corner to activate and deactivate multi-user intercom. The " ⬚ " will turn to blue when multi-user intercom is activated. You are in the standby mode when multi-user intercom is activated. You can hear the conversation but cannot talk to the group in the standby mode.

Switching Between Talk Mode and Standby Mode

Chat
- Add Contacts
- Create Groups
- Scan QR Code
- My Smart Devices
- Recording Setting
- Audio Setting

Recording Setting
Long Press Recording | ⬤
Switch Recording | ◯
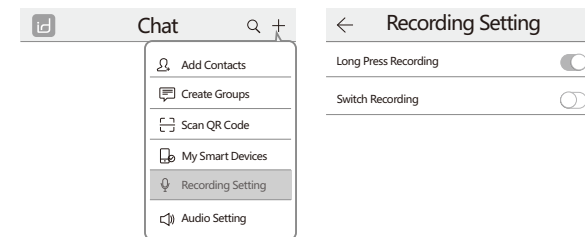

Press the W1 remote control to turn the multi-user intercom from standby mode to talk mode. You can press "+" menu and select "Recording Setting" to choose the button configuration; "Long Press Recording" or "Switch Recording". If "Long Press Recording" is selected, you have to press and hold the remote control for the whole recording period. When you release the W1 button, it will terminate the talk mode and turn to standby mode. If "Switch Recording" is selected, you can short press the remote control to initiate the talk mode. You don't have to hold the W1 button in the talking period. When you finish your recording, press the W1 button again to terminate the talk mode and turn to standby mode.
