RE: Smart Christmas Solutions

FCC ID: VJK73833T27

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) FYI...It is noted that for the fundamental that both peak and average data was provided. Note that it is uncertain if this carrier is pulsed or not. If the carrier is pulsed (i.e. pulses are seen when looking at the carrier with 0 Hz. span), then the average should have been calculated and not measured. Given that the peak carrier meets average limits, further investigation is not being taken.

A handwritten signature in black ink, appearing to read "Timothy R. Johnson".
