

# Masimo Corporation EMMA BT FCC 2.1093:2016 Bluetooth Low Energy Radio

Report # MASI0321

NVLAP Lab Code: 200676-0

This report must not be used to claim product certification, approval, or endorsement by NVLAP, NIST, or any agency of the federal government of the United States of America.

## Last Date of Evaluation: July 14, 2016 Masimo Corporation Model: EMMA BT

# **RF Exposure Evaluation**

### Standards

| Specification   | Method  |
|-----------------|---|
| FCC 2.1093:2016 | FCC KDB 447498 D01 General RF Exposure Guidance v06 |

Results

| Method<br>Clause | Evaluation Description |     | Results | Comments |  |
|------------------|------------------------|-----|---------|----------|--|
| 4.3.1            | SAR Test Exclusion     | Yes | Pass    |          |  |

### **Deviations From Standards**

None

Approved By:

Donald Facteau, IT Manager

Product compliance is the responsibility of the client; therefore, the Evaluations and equipment modes of operation represented in this report were agreed upon by the client, prior to Evaluationing. The results of this Evaluation pertain only to the sample(s) Evaluationed. The specific description is noted in each of the individual sections of the Evaluation report supporting this certificate of Evaluation. This report reflects only those Evaluations from the referenced standards shown in the certificate of Evaluation. It does not include inspection or verification of labels, identification, marking or user information.

# **REVISION HISTORY**

| Revision<br>Number |      | Description | Date | Page Number |  |
|--------------------|------|-------------|------|-------------|--|
| 00                 | None |             |      |             |  |

# ACCREDITATIONS AND AUTHORIZATIONS

### **United States**

FCC - Designated by the FCC as a Telecommunications Certification Body (TCB). Certification chambers, Open Area Test Sites, and conducted measurement facilities are listed with the FCC.

**A2LA** - Accredited by A2LA to ISO / IEC 17065 as a product certifier. This allows Northwest EMC to certify transmitters to FCC and IC specifications.

NVLAP - Each laboratory is accredited by NVLAP to ISO 17025

#### Canada

IC - Recognized by Industry Canada as a Certification Body (CB). Certification chambers and Open Area Test Sites are filed with IC.

#### **European Union**

European Commission – Validated by the European Commission as a Notified Body under the R&TTE Directive.

#### Australia/New Zealand

ACMA - Recognized by ACMA as a CAB for the acceptance of test data.

#### Korea

MSIP / RRA - Recognized by KCC's RRA as a CAB for the acceptance of test data.

#### Japan

VCCI - Associate Member of the VCCI. Conducted and radiated measurement facilities are registered.

#### Taiwan

BSMI – Recognized by BSMI as a CAB for the acceptance of test data.

NCC - Recognized by NCC as a CAB for the acceptance of test data.

#### Singapore

**IDA** – Recognized by IDA as a CAB for the acceptance of test data.

#### Israel

**MOC** – Recognized by MOC as a CAB for the acceptance of test data.

### Hong Kong

OFCA – Recognized by OFCA as a CAB for the acceptance of test data.

#### Vietnam

**MIC** – Recognized by MIC as a CAB for the acceptance of test data.

# **PRODUCT DESCRIPTION**

## Client and Equipment Under Evaluation(EUT) Information

| Company Name:             | Masimo Corporation |
|---------------------------|--------------------|
| Address:                  | 40 Parker          |
| City, State, Zip:         | Irvine, CA 92618   |
| EvaluationRequested By:   | Michael Clark      |
| Model:                    | EMMA BT            |
| First Date of Evaluation: | July 14, 2016      |

## Information Provided by the Party Requesting the Evaluation

| Functional | Description | n of the EUT: |  |
|------------|-------------|---------------|--|
|            |             |               |  |

EMMA measures, displays and monitors carbon dioxide partial pressure and respiratory rate during anesthesia, recovery and respiratory care.

### **Objective:**

To demonstrate compliance with FCC RF exposure requirements for 2.1093 portable devices.

# SAR TEST EXCLUSION

#### **OVERVIEW**

The device is excluded from SAR evaluation and therefore deemed compliant with FCC RF exposure requirements as described below:

#### COMPLIANCE WITH FCC KDB 447498 D01 General RF Exposure Guidance v06

KDB 447498 D01 General RF Exposure Guidance v06, Section 4.3.1(a)

"For 100 MHz to 6 GHz and test separation distances  $\leq$  50 mm, the 1-g and 10-g SAR test exclusion thresholds are determined by the following:

[(max. power of channel, including tune-up tolerance, mW)/(min. test separation distance, mm)]  $\cdot [\sqrt{f(GHz)}] \le 3.0$ for 1-g SAR and  $\leq$  7.5 for 10-g extremity SAR,

where

- f(GHz) is the RF channel transmit frequency in GHz ٠
- Power and distance are rounded to the nearest mW and mm before calculation
- The result is rounded to one decimal place for comparison •
- 3.0 and 7.5 are referred to as the numeric thresholds in the step b below •

The test exclusions are applicable only when the minimum test separation distance is  $\leq$  50 mm and for transmission frequencies between 100 MHz and 6 GHz. When the minimum test separation distance is < 5 mm, a distance of 5 mm according to 4.1f) is applied to determine SAR test exclusion."

#### **METHOD OF EVALUATION**

The SAR Test Exclusion Threshold is summarized in the following table:

The result of the calculation is below the exclusion threshold; therefore the unit is excluded from SAR evaluation and deemed compliant with FCC RF exposure requirements.

| Radio | Transmit<br>Frequency<br>(MHz) | Test<br>Separation<br>(mm) | Conducted<br>Output<br>Power (mW) | Duty Cycle | Exclusion<br>Threshold | Limit | Compliant |
|-------|--------------------------------|----------------------------|-----------------------------------|------------|------------------------|-------|-----------|
| BT    | 2402                           | 5                          | 1.5                               | 1          | 0.47                   | 3     | Yes       |
