

### **Operational description JA-80E**

The JA-80E is a component of Jablotron's Oasis 80 alarm system and is designed to control and program the system. It has a built-in proximity access card reader and allows the wiring up of a separate door detector. The keypad should be wired to the control panel.

RFID cards are passive, type Jablotron PC-01 or PC-02

The operating frequency of card reader is in the 125 kHz frequency band.

It is powered via the OASIS bus from the control unit.
