

motorola
 MODELS: VERVEBUDS 110
 Frequency Band: 2.402 – 2.480 GHz
 Maximum RF power: 6 dBm
 Working temperature: -10°C – 45°C

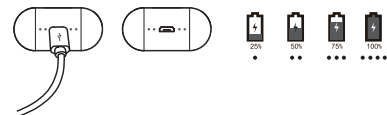

Product ID: SH039
 FCC ID: VLJ-SH039
 IC: 4522A-SH039

User Manual

EN

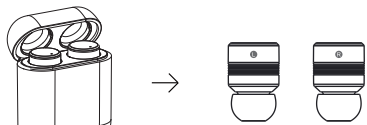

1. Charging:

Fully charge before use
 The device can be powered through a micro USB from any CE compliant power source that implement the European interface as requested by EN 301 489-52.

2. Pairing:

2.1 Ensure both buds are inside the charging case and take out both buds. The buds will flash blue and red.

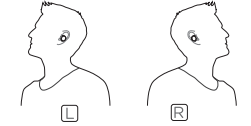

2.2 Select "Vervebuds 110" from the smartphone Bluetooth menu.

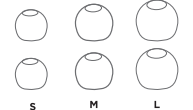

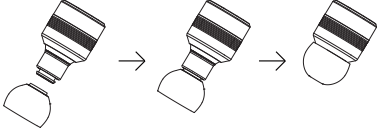

2

3. Fitting:

3.1 Insert the Vervebuds into your ear and rotate to fit comfortably.

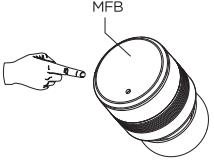

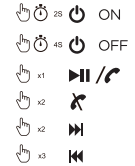

3.2 To optimize the best fit and audio experience, it is recommended to try different earbud sizes.

3

5.1 Ensure both buds are in the case. Take the L bud out, the indicator will flash BLUE & RED.

4

5.2 Select "Vervebuds 110(L)".

FCC:
 This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
 Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
 NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful

5

interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
 If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 -- Reorient or relocate the receiving antenna.
 -- Increase the separation between the equipment and receiver.
 -- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 -- Consult the dealer or an experienced radio/TV technician for help.
 The device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure condition without restriction.
 FCC ID: VLJ-SH039

The earbuds are very small so rating label information is shown in the charging case. The earbuds and the charging case are sold together.
