To Whom It May Concern:

This statement reaffirms that the EUTs will be manufactured in the same method as the EUTs used for test. No further changes will be made to the manufactured units so they will not differ to the EUT samples used for test.

Sincerely,

A handwritten signature in blue ink that reads "lourans aoraha". The signature is fluid and cursive, with "lourans" on the top line and "aoraha" on the bottom line, slightly overlapping.

Lourans Aoraha
Vice President of Engineering
