

21-April-2011

To whom it may concern

1. There are several exhibits listing the FCC ID as VMY-UWBTE1; however, this application was submitted under FCC ID VMYUWBTE1. Please clarify.

*We are requesting that the application be change to reflect the FCC ID: **VMY-UWBTE1** as listed on the other documents. When submitting the information in e-filing (form 731) the hyphen was missed, and it was not noticed. This was the result of the submitter's inexperience with the system. We apologize for any inconvenience this may have caused*

2. We cannot determine the Unitron signature in the Cover Letter(s) exhibit described as OEM Agreement. Please provide a revised exhibit with a printed name. Please provide a revised Cover Letter(s) exhibit, described as Confidentiality Letter indicating the correct FCC ID.

The OEM agreement was signed by me, Ric Castle. I have added my printed name to the original document and re-signed. The revised document will be re-submitted along with this letter.

Sincerely

A handwritten signature in black ink, appearing to read 'Ric Castle', with a long horizontal flourish extending to the right.

Ric Castle
Manager, Quality Assurance
