■ Chargers and batteries

Check if the charger is the affiliated device before using.

Warning: Use only batteries and chargers approved for use. The use of any other types may invalidate any approval or warranty, and may be dangerous.

For availability of approved affiliated devices, please check with your dealer. When you disconnect the power cord of any device, grasp and pull the plug, instead of the cord.

■ Charge the battery

This device has an internal, nonremovable, rechargeable battery. Do not attempt to remove the battery from the device as you may damage the device.

1. Connect the charger cable to the headset.
2. Connect the charger to an electrical outlet.

The red indicator light is on during charging.

If charging does not start, disconnect the charger, plug it in again, and retry. Charging the battery fully may take up to 2 hours

3. When the battery is fully charged, the red indicator light turns off and the blue indicator light turns on. Disconn-

ect the charger from the electrical outlet and the headset. The fully charged battery has power for up to 3 hours–6 hours 30 minutes of talk-time or up to 100 hours–180 hours of standby time.

However, the talk and standby time may vary with different mobile phones, products that use a Bluetooth connection, usage settings, styles, and environments.

■ **Switch the headset on or off**

To switch on, press and hold the MF button, The headset beeps, and the blue indicator light is displayed.

When the headset is connected to a paired phone and is ready for use, the blue indicator light flashes slowly.

To switch off, press and hold the MF button. The headset beeps, and the blue indicator light is flashing twice.

■ **Pair the headset with a compatible phone**

This is the multipoint Bluetooth headset, it can be paired and connected with 2 mobile phones at the same time.

The following is the user instruction of pairing and connecting with 1 mobile phone:

1. Press and hold MF button until the indicator light turns on in blue.
2. Activate the Bluetooth feature on the phone, and set the phone to search for Bluetooth devices.
3. Select the headset from the list of found devices.
4. Enter the passwode 0000 to pair and connect the headset to your phone. If the pairing is successful, the indictor light will flash in blue 2 times, In some phones

you may need to make the connection separately after Pairing. See the user guide of your phone for details.

You only need to pair the headset with your phone once.

5. If the pairing is successful, the headset beeps and appears in the phone menu where you can view the currently paired Bluetooth devices.

How to pair and connect with 2 mobile phones:

1. Press and hold MF button until the indicator light turns on in blue
2. Activate the Bluetooth feature on 2 mobile phones, and set the phone to search for Bluetooth devices.
3. Select the same headset from the list of found devices in 2 mobile phones.
4. Enter the passwode 0000 to pair and connect the headset to your phone. If the pairing is successful, the indictor light will flash in blue 2 times, In some phones you may need to make the connection separately after Pairing. See the user guide of your phone for details. You only need to pair the headset with your phone once.
5. If the pairing is successful, the headset beeps and appears in the phone menu where you can view the currently paired Bluetooth devices.

■ Disconnect the headset from the phone

To disconnect the headset from your phone (for example, to connect the phone to another Bluetooth device). you can find how to make it in the following ways:

- Switch off the headset.
- Disconnect the headset in the Bluetooth menu of your phone.

- Move the headset 10 meters (30 feet) away from the phone.

You do not need to delete the bluetooth headset from your phone's bluetooth device list if you want to disconnect the headset with your phone.

■ **Reconnect the paired headset with your phone**

To reconnect the headset with your phone, please switch on the headset and it will be connected with your phone automatically, this is subject to the phone.

■ **Call Management:**

Redial: Press and hold the MF button for 2 seconds.

Voice dial: Press once the MF button and you will be asked to speak the name that you want to call.

Answer the call: Press once the MF button to answer the call. Some mobile phones support automatic call answering, so you may not need to press the MF button when you are using these mobile phones with automatic answering feature.

If during a phone conversation, another incoming call is received on the 2nd phone, you will hear a beep. Now you can:

- **Answer the incoming call on 2nd phone:** Press and hold the MF button for 2 seconds until you hear the beep, the 1st call will be put on hold and you can answer the call on the 2nd phone.
- **Switch between 2 calls:** Press and hold the MF button for 2 seconds until you hear the beep to switch between 2 calls.
- **Reject the incoming call on the 2nd phone:** Press and

'Volume (-)' button for 2 seconds to reject the call on the 2nd phone.

- **End current call and accept call on the 2nd phone:**
Press the MF button once to end the current call and accept the call on the 2nd phone.

Note: The above call management depends on whether your phone supports the feature.

■ **Switch the call between phone and headset**

To switch the call between the headset and a compatible phone, press and hold the multifunction key for 2 seconds, or use the respective function in your phone.

■ **Use the headset with several phones**

You can pair the headset with up to eight phone and connect it with 2 mobile phones simultaneously.

The phone that was first paired with the headset is the default phone, If the headset is switched on within 10 meters (30 feet) of several paired phones, the headset tries to connect with the default phone.

If the headset cannot connect with the default phone, the headset tries to connect with the last used phone. if the headset cannot connect with this phone either, one of the other six paired phones can be connected with the headset.

To make the connection, see the user guide of your phone.
