Re: Modular Approval Request for Model: P1453, FCC ID: VOB-P1453

Dear Sir/Madam,

NVIDIA Corporation is requesting modular approval authorization for a 3D Vision Pro Embedded Hub, Model P1453.

The following attestation addresses the requirements of section 15.212 of the FCC rules to support modular approval:

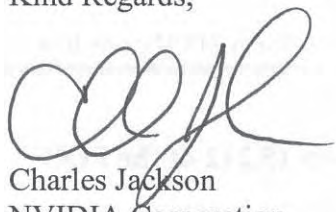

Modular approval requirement	Yes	No *
(a) The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly.	X	
(b) The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal.	X	
(c) The module must contain power supply regulation on the module.	X	
(d) The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b).	X	
(e) The module must demonstrate compliance in a stand-alone configuration.	X	
(f) The module must be labeled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labeling requirements).	X	
(g) The module must comply with all specific rules applicable to the transmitter. The grantee must provide comprehensive instructions to explain compliance requirements.	X	

Modular approval requirement (Continued)t	Yes	No *
(h) The module must comply with RF exposure requirements.	X	

* Please provide a detailed explanation if the answer is "No."

Please contact me if there are any questions

Kind Regards,

Charles Jackson
