Federal Communications Commission  
Authorization and Evaluation Division  
7435 Oakland Mills Road  
Columbia, MD 21046

Subject: FCC Attestation for UNII-3 band, FCC ID: VOB-P2570

To Whom it may concern,

We Nvidia Corporation, declare that our Portable Gaming Device, model: P2570, FCC ID: VOP-P2570 was previously certified under § 15.247 (DTS). We would like to submit a Class II Permissive Change to update the UNII-3 band to § 15.407 (NII). Please refer to the FCC § 15.247 and § 15.407 (MO&O FCC 16-24) details below:

<b>FCC Part 15.247 Rules</b>	<b>Description of Test</b>	<b>Comply with FCC 15.407</b>
§15.247(i)	RF Exposure	§15.407(f)
§15.247 (d)	Spurious Radiated Emissions	§15.407(b)
§15.247(a)(2)	Emission Bandwidth	§15.407(a)&(e)
§15.247(d)	Output Power	§15.407(a)(1), (a)(3)
§15.247(d)	Band Edge	§15.407 (b)(4)(ii)
§15.247(e)	Power Spectral Density	§15.407(a)(1),(a)(3)
§15.247 (d)	Unwanted Emission	§15.407 (b)(4)(ii)

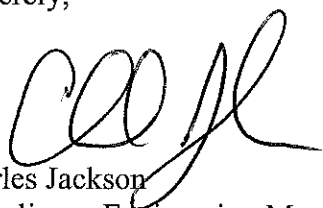

Based on the above information, we would like to update from DTS to NII without additional testing.

The device was previously certified in the UNII-3 with the antennas listed below,

Antenna No.	Antenna Type	Antenna Gain (dBi)
1	Chip antenna	3.51
2	Chip antenna	3.51

As the highest antenna gain is less than 10 dBi, the product will be manufactured, marketed, sold or imported until March 2, 2020.

Sincerely,

Charles Jackson  
Compliance Engineering Manager  
NVIDIA Corporation
