Applicant: NVIDIA Corporation

Dear Examiner,

This is to request a Class II permissive change for FCC ID: VOB-P2575, originally granted on 04/09/2015

The major change filed under this application is:

- Adjust GND around RF path, and void reference GND under the antenna feed clip, to improve impedance matching.
- Improve AGND flood, by removing digital GND floods from above it
- Improve power delivery by removing unused 0ohm series resistors to power blocks

Sincerely,
