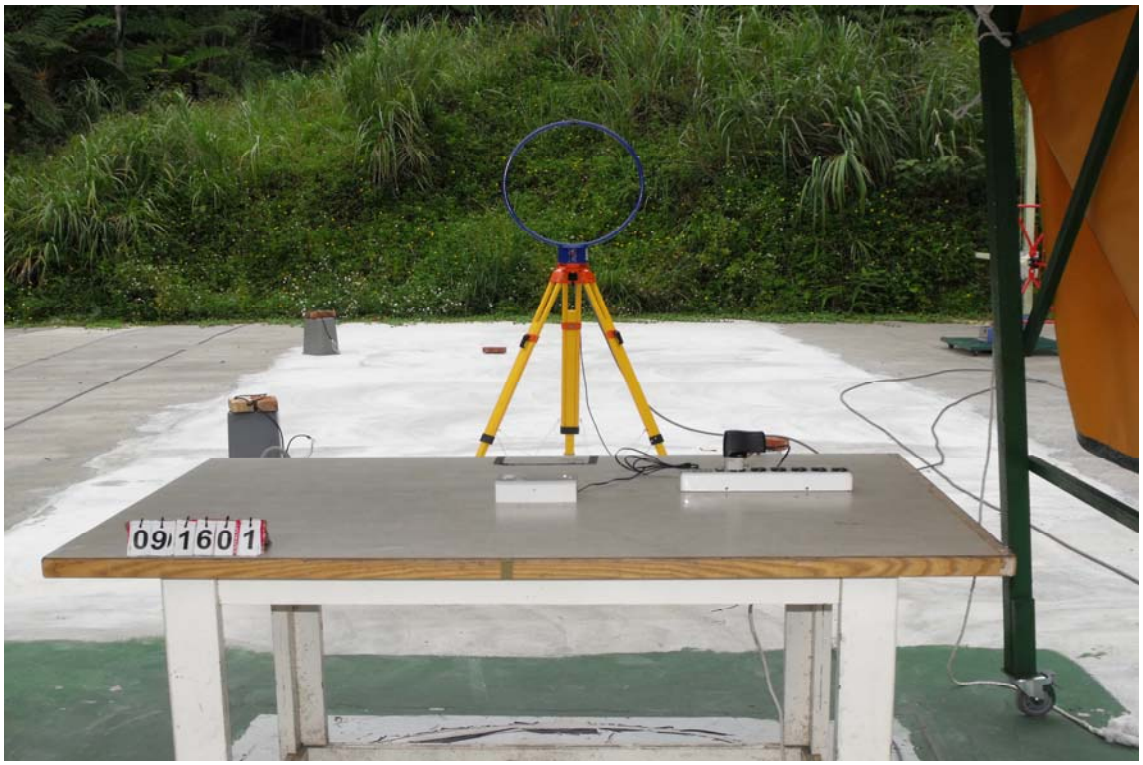
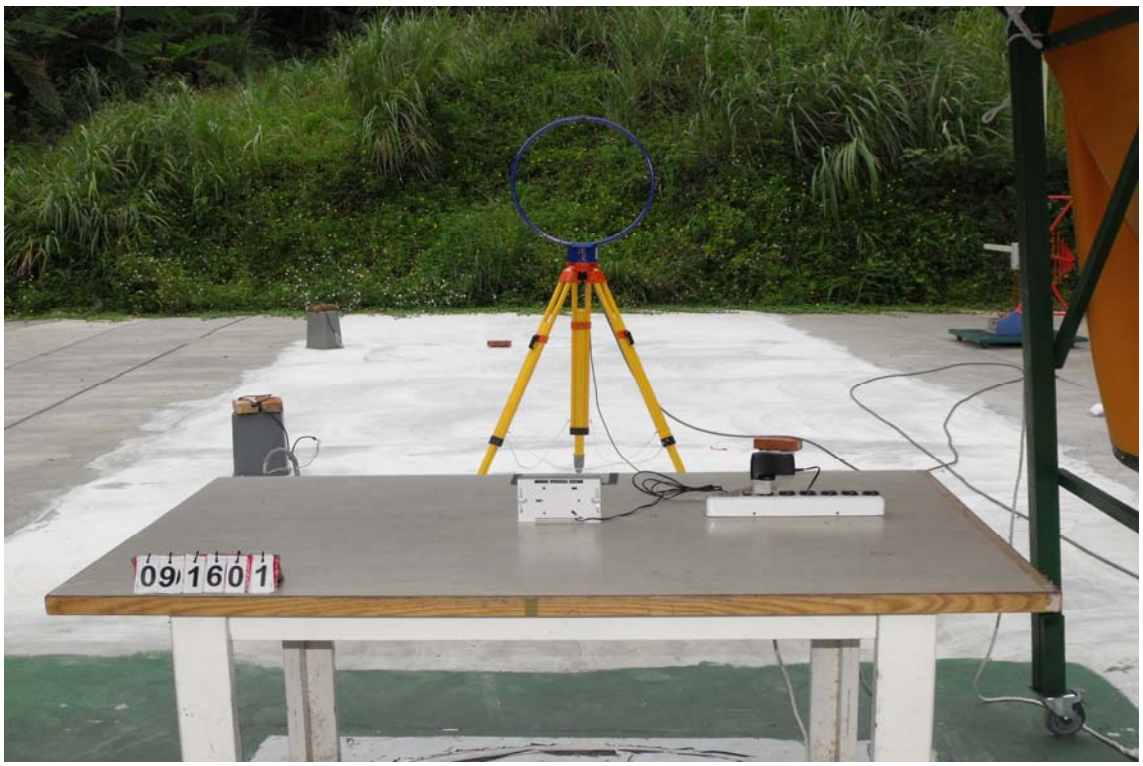
Appendix 1

PHOTOS OF TEST CONFIGURATION

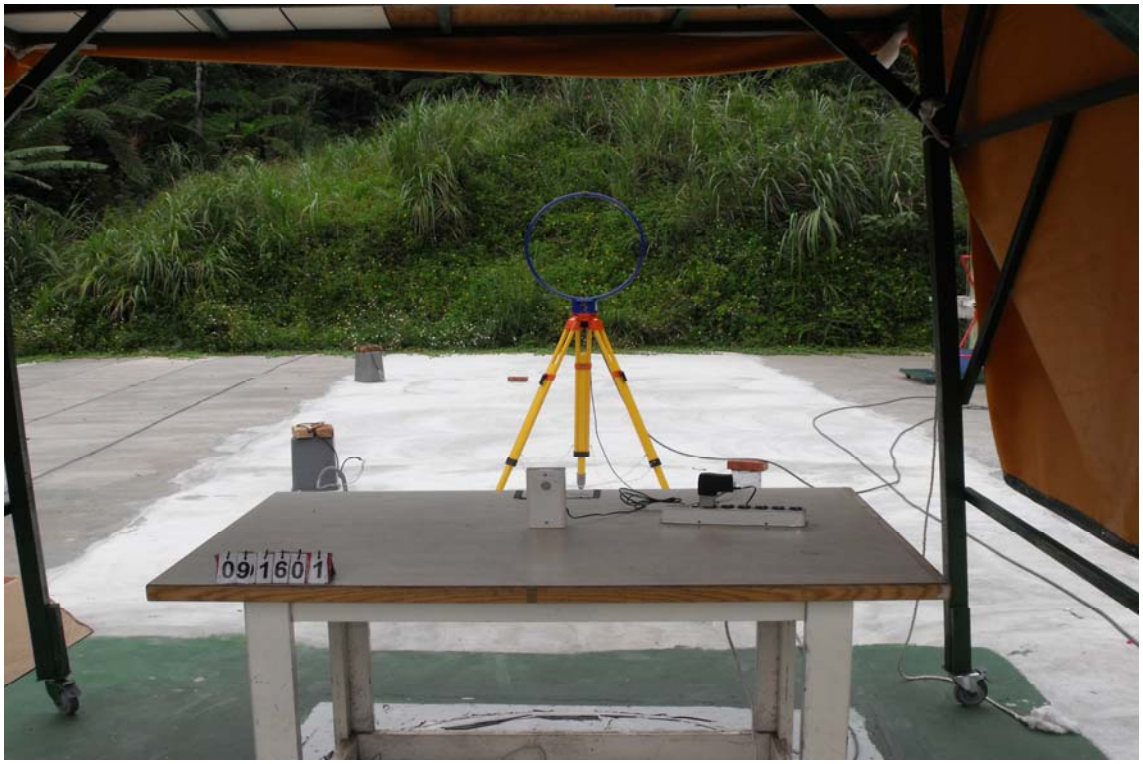
Horizontal Polarization and the EUT place to the X axis (9kHz to 30MHz)



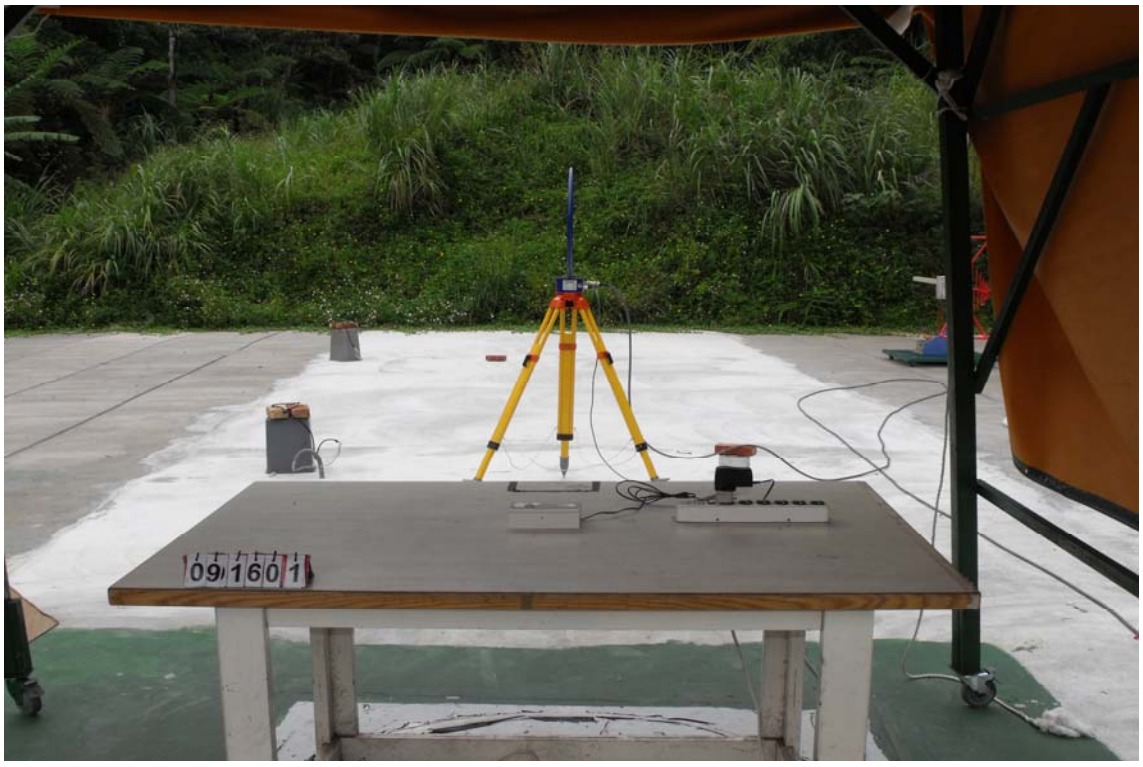
Horizontal Polarization and the EUT place to the Y axis (9kHz to 30MHz)



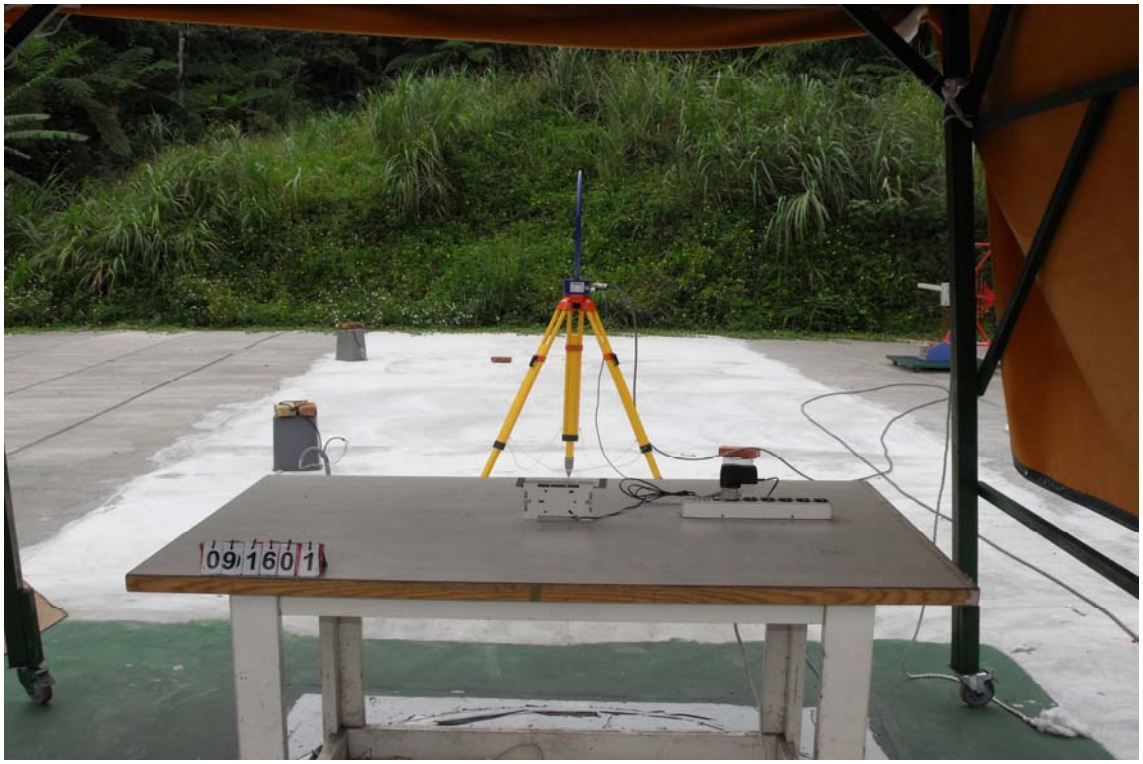
Horizontal Polarization and the EUT place to the Z axis (9kHz to 30MHz)



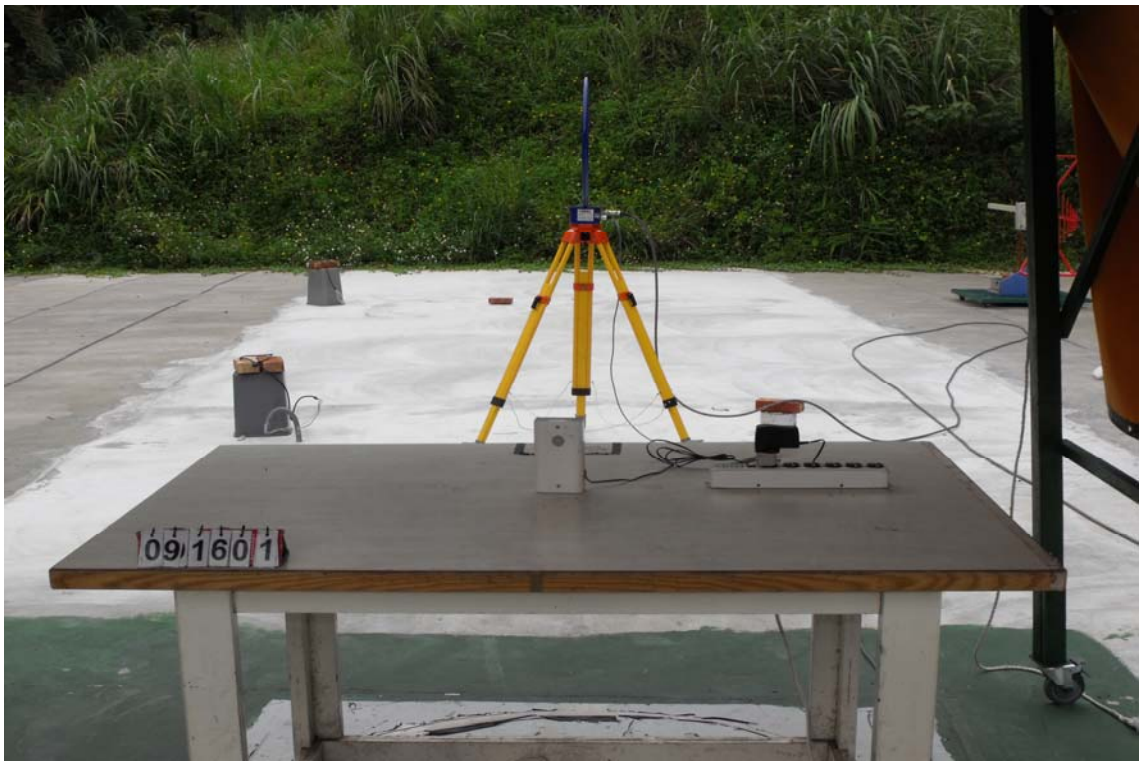
Vertical Polarization and the EUT place to the X axis (9kHz to 30MHz)



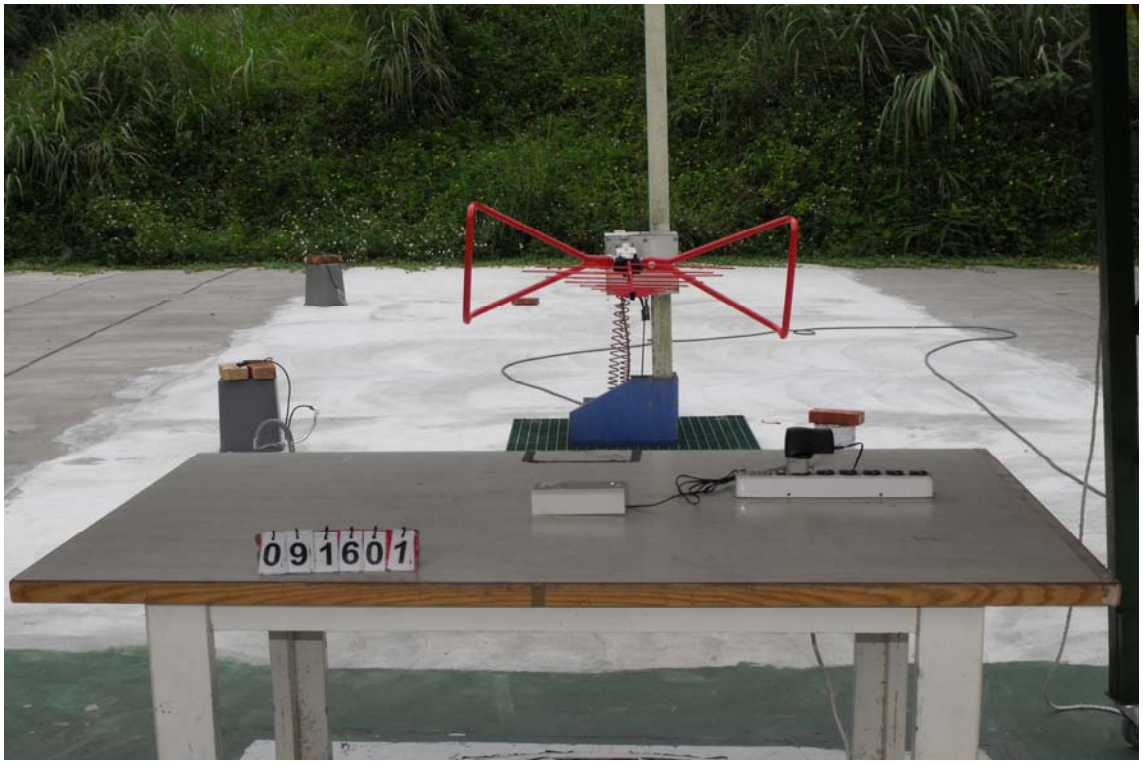
Vertical Polarization and the EUT place to the Y axis (9kHz to 30MHz)



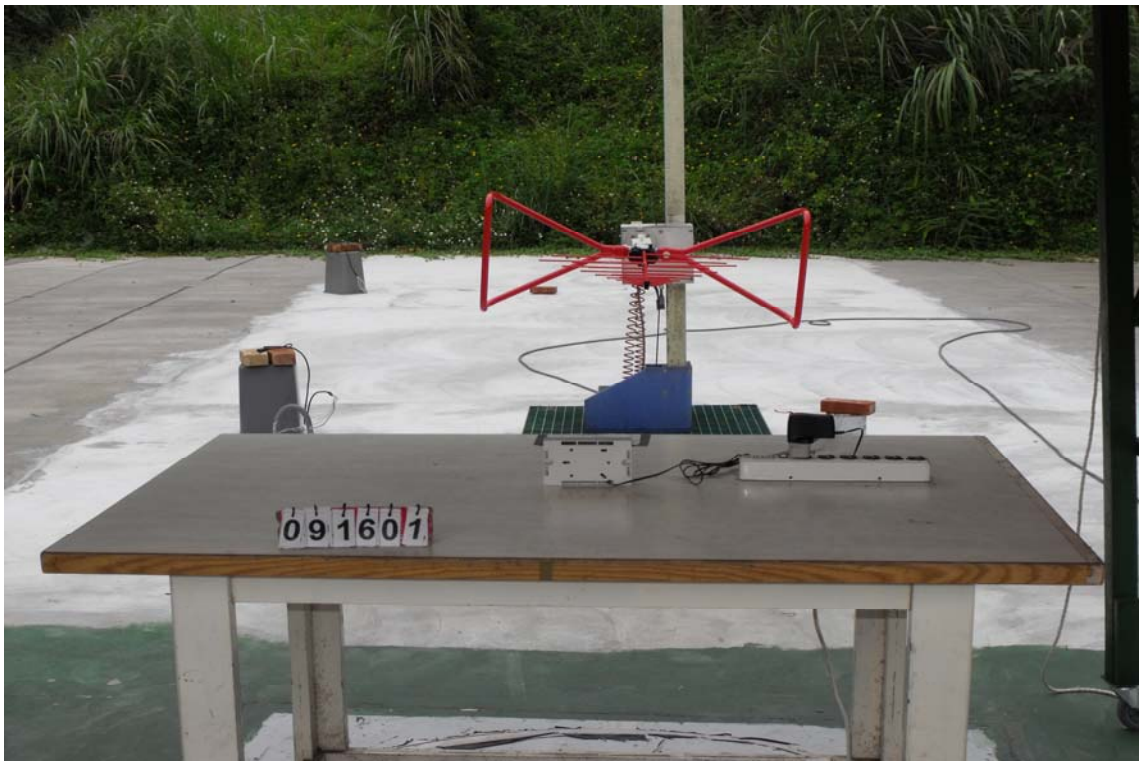
Vertical Polarization and the EUT place to the Z axis (9kHz to 30MHz)



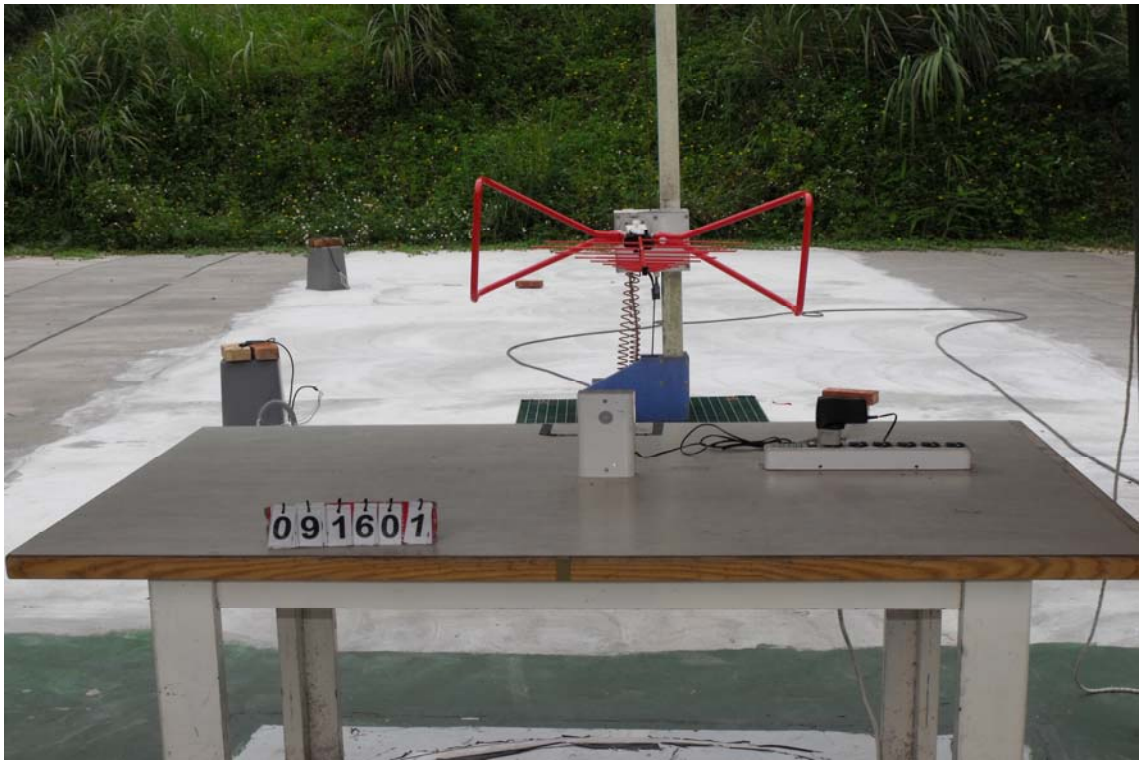
Horizontal Polarization and the EUT place to the X axis (30MHz to 1GHz)



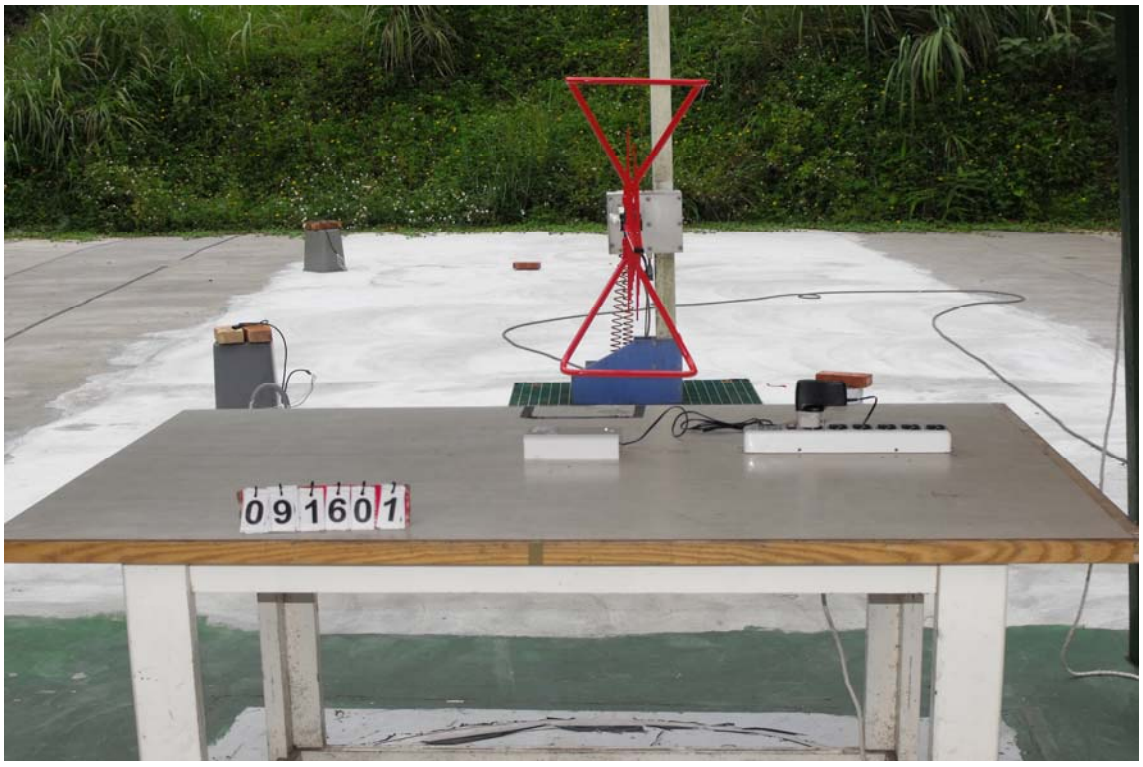
Horizontal Polarization and the EUT place to the Y axis (30MHz to 1GHz)



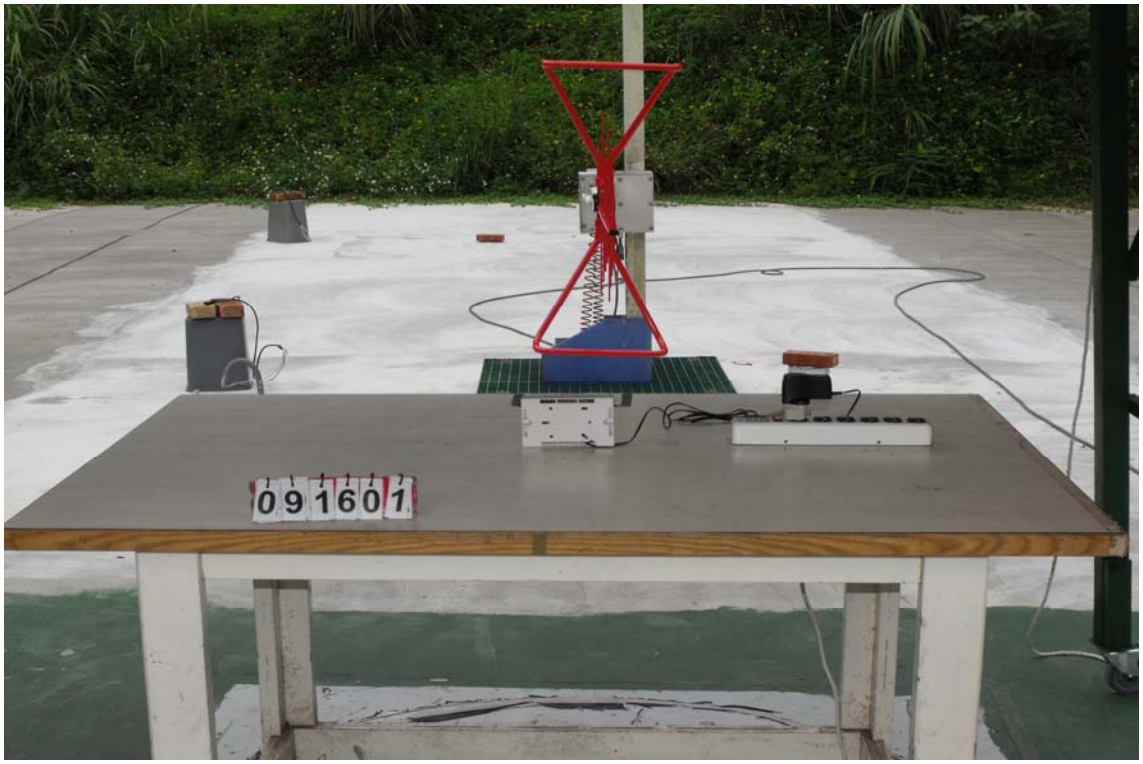
Horizontal Polarization and the EUT place to the Z axis (30MHz to 1GHz)



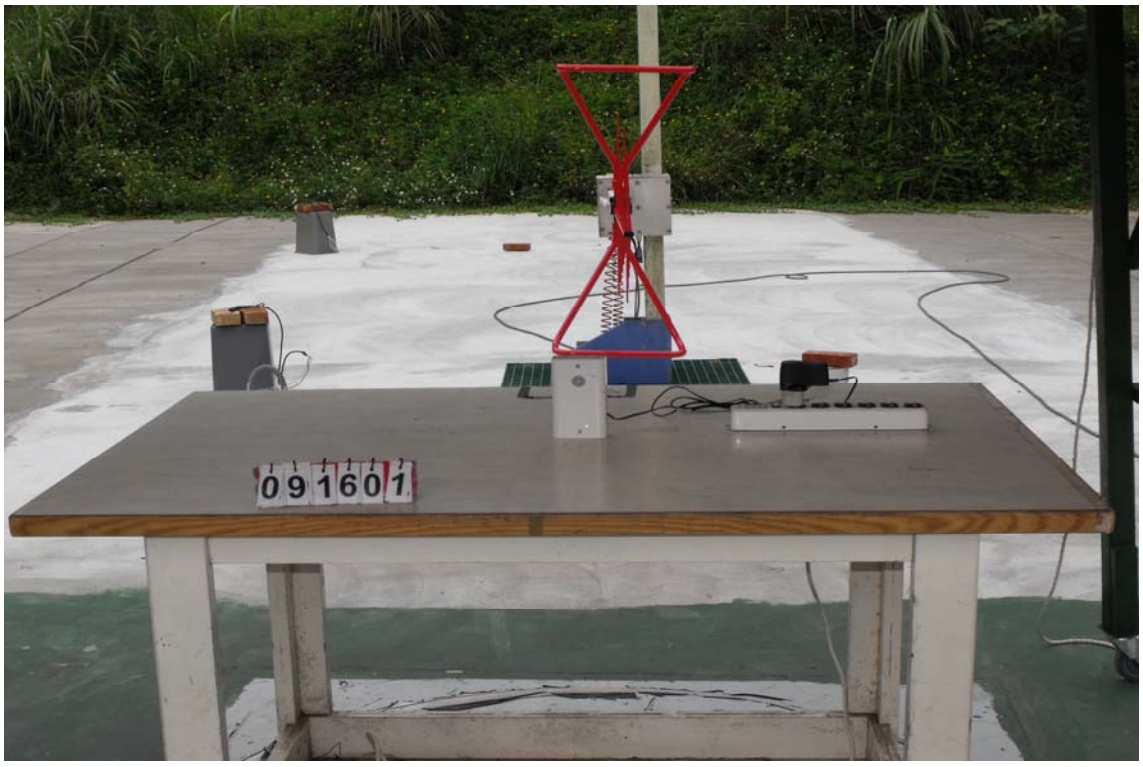
Vertical Polarization and the EUT place to the X axis (30MHz to 1GHz)



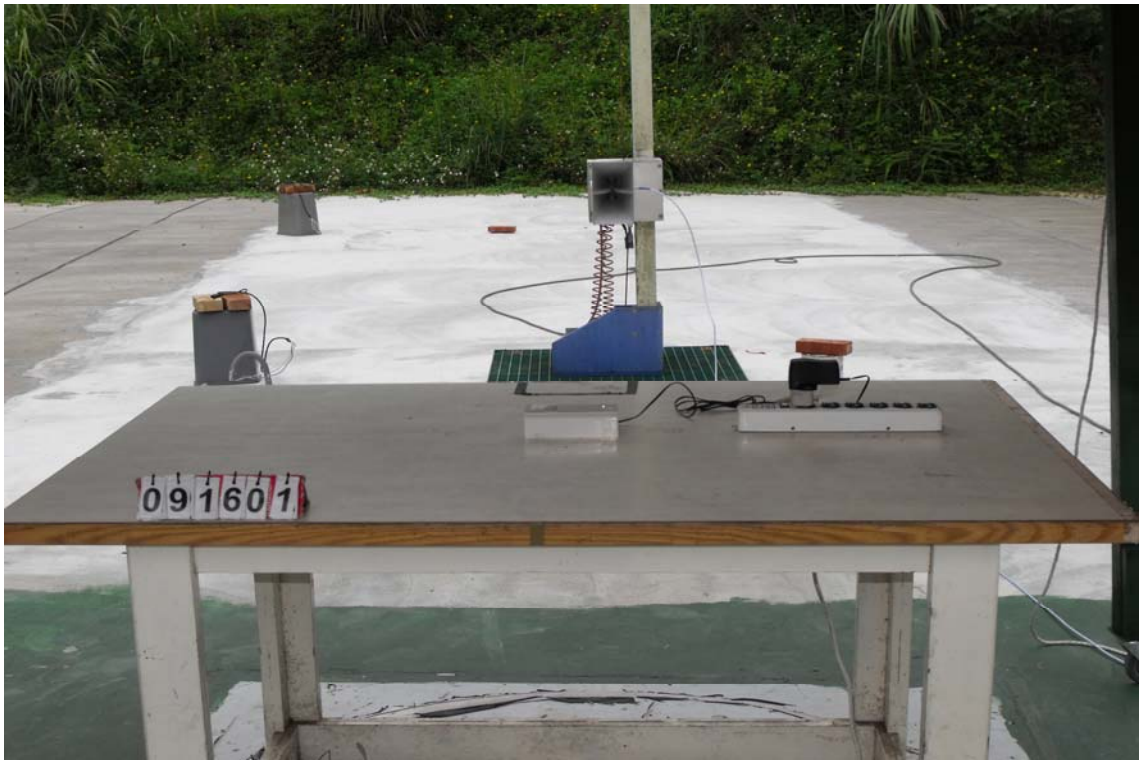
Vertical Polarization and the EUT place to the Y axis (30MHz to 1GHz)



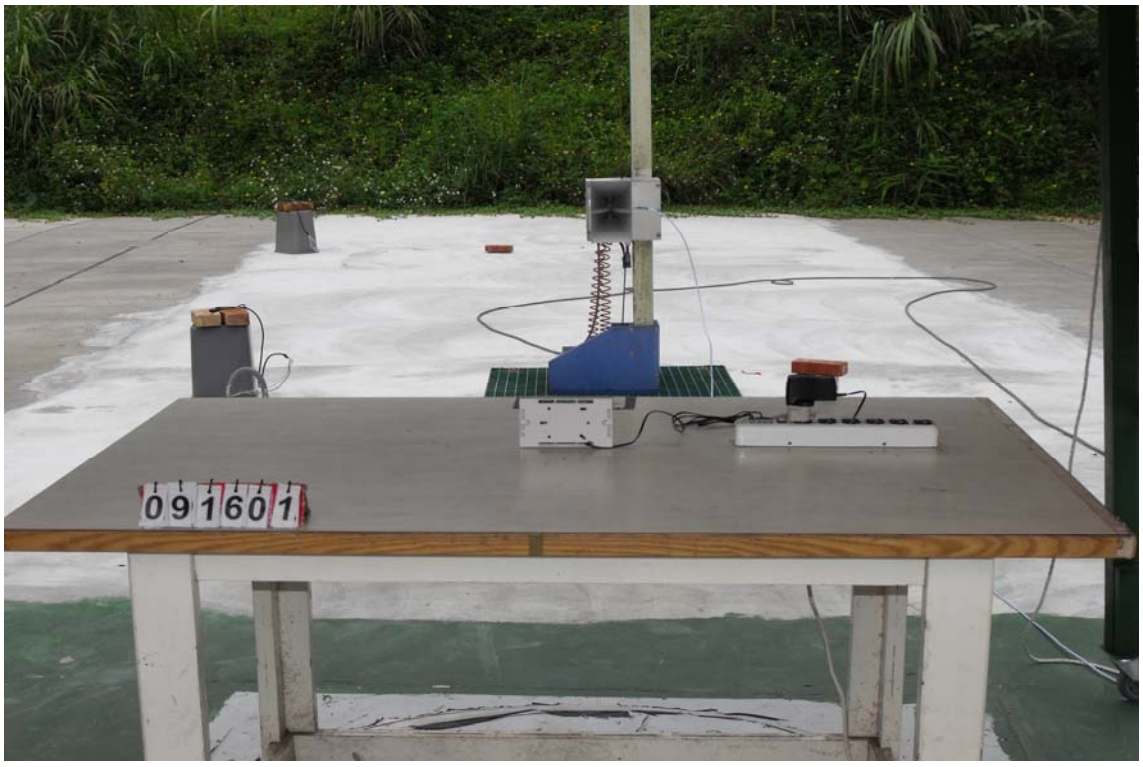
Vertical Polarization and the EUT place to the Z axis (30MHz to 1GHz)



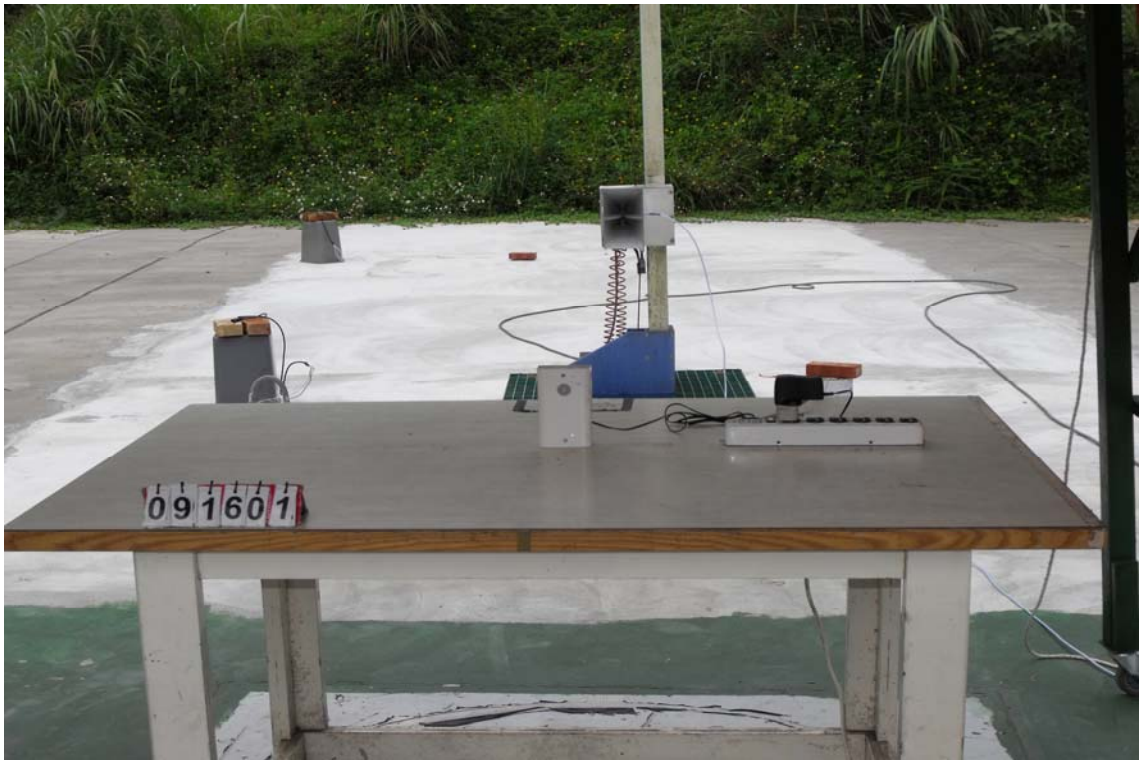
Horizontal Polarization and the EUT place to the X axis (1GHz to 10GHz)



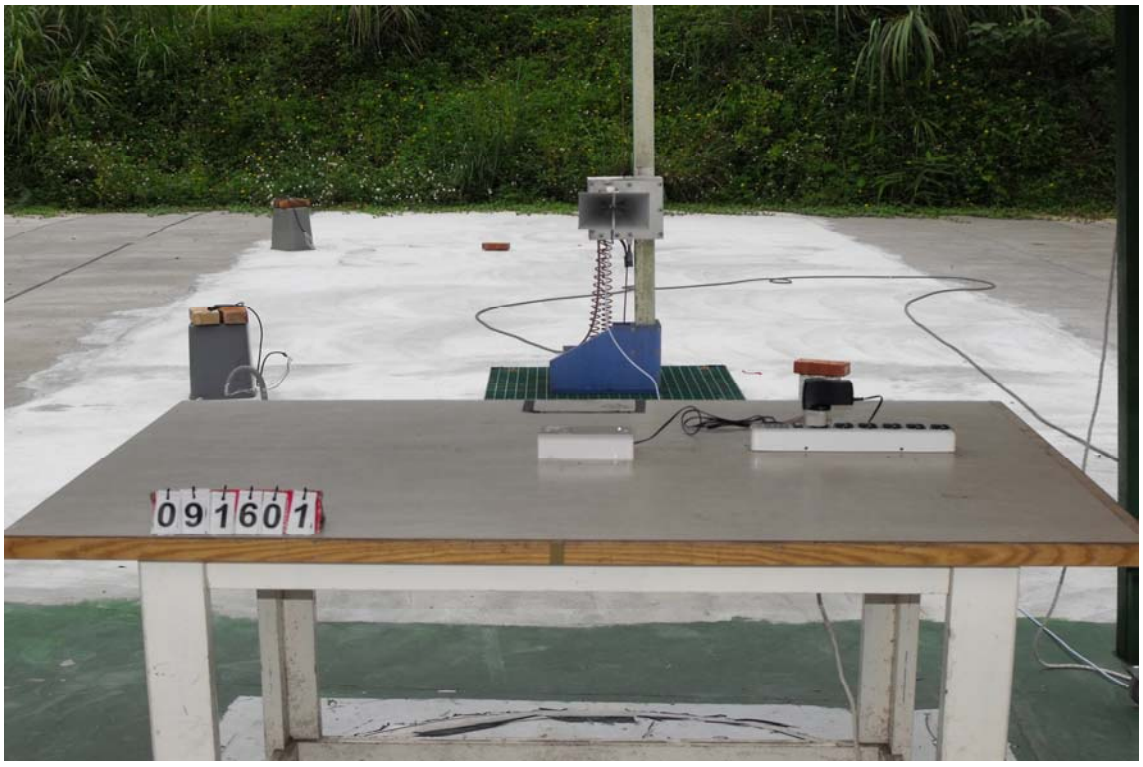
Horizontal Polarization and the EUT place to the Y axis (1GHz to 10GHz)



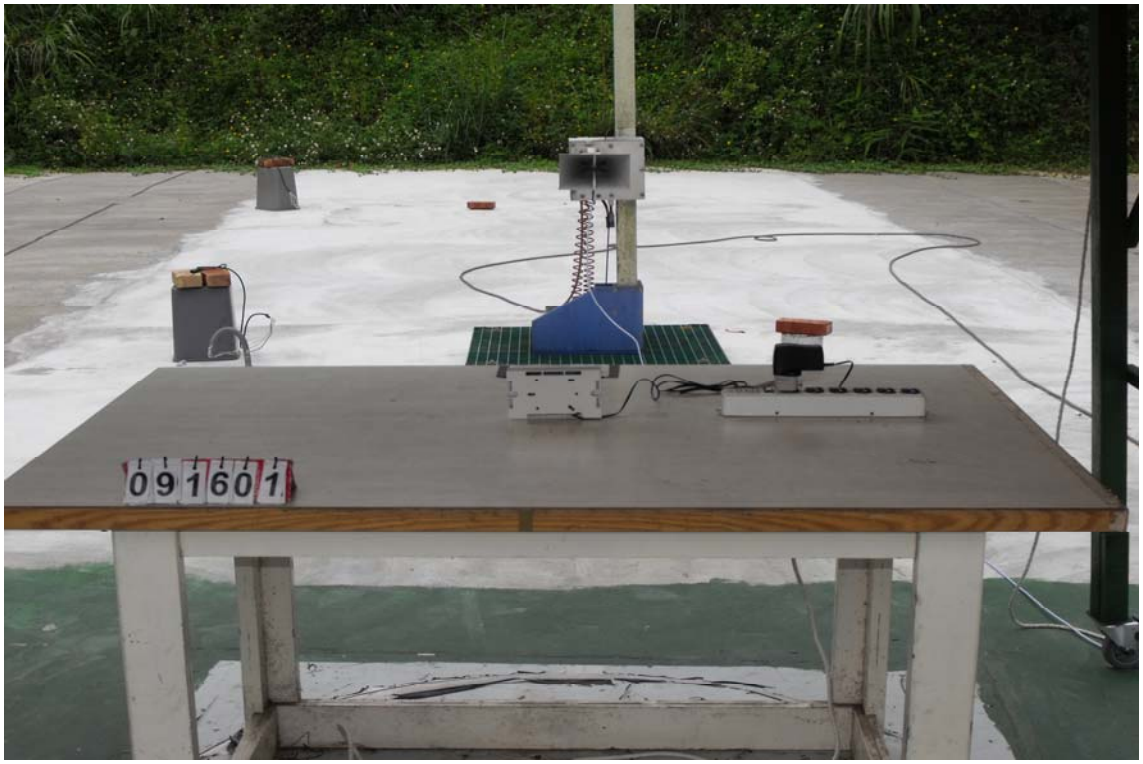
Horizontal Polarization and the EUT place to the Z axis (1GHz to 10GHz)



Vertical Polarization and the EUT place to the X axis (1GHz to 10GHz)



Vertical Polarization and the EUT place to the Y axis (1GHz to 10GHz)



Vertical Polarization and the EUT place to the Z axis (1GHz to 10GHz)
