Federal Communication Commissions  
Equipment Authorization Bureau

September 28, 2007

To whom it may concern,

Automation Products Group is requesting an FCC ID change application. The FCC ID of the original manufacture is QVK-ABMX00, which was granted on 2/28/2003.

Our proposed new FCC ID is VPK-APGPR. The equipment marketed under new FCC ID is exactly same as the original equipment. We purchased original equipment and would like to market it with our own FCC ID. Original test results continue to be representative of and applicable to the equipment with the new FCC ID.

Below are the proposed ID label location and a photo of the radar level sensor.

Best Regards,  
Jon Cox  
Application Engineer
