

Attestation Letter

Date: October 26, 2018

UL Japan, Inc.
4383-326 Asama-cho, Ise-shi,
Mie 516-0021 Japan

FCC ID : VPYLB1MW
Applicant: Murata Manufacturing Co., Ltd.

To whom it may concern:

We, Murata Manufacturing Co., Ltd., performed SAR testing to mount the module, Communication Module, Model: 1MW, into the portable host device (Digital Camera, Model: N1711). However, the Radiated emission testing was not additionally performed due to the following reason.

- The original FCC testing of the module 1MW was performed when the antenna was connected to the module in an open environment. Under this application, the 1MW itself and its antennas were installed inside the Digital Camera enclosure. The physical restraints introduced by the Digital Camera enclosure would result in equal or lower level of radiated emission.
- The microstrip line of antenna connection is designed according to the installation manual.

Thank you for your attention to this matter.

Sincerely,

Takahiro Watanabe
Murata Manufacturing Co., Ltd.
