

# Your Phone

---

Philips continuously strives to improve its products. Due to software upgrading, some contents in this user guide may be different from your product. Philips reserves the rights to revise this user guide or withdraw it at any time without prior notice. Please take your product as standard.

---

## Home screen

Your phone's home screen consists of the following areas:

## Keys

Learn about the main keys.

Icons	Definition	Function
	Dial	Make or answer a call.
	Confirm and navigation key	Select or confirm an option.
	Hang-up/ Exit/ Power	End a call; Return to home screen; Hold to turn on/off the phone.
	Left soft key	Select the options on the screen.
	Right soft key	Select the options on the screen.
	Lock/unlock	Long press  to lock keys on home screen; Press  and then  to unlock keys.

## Icons & symbols

Learn about the icons and symbols on the screen.

Icons	Definition	Function
	<b>Ringtone</b>	Your phone will ring when receiving a call.
	<b>Vibration only</b>	Your phone will vibrate when receiving a call.
	<b>Silent</b>	Your phone will not ring when receiving a call.
	<b>Battery</b>	The bars indicate the battery level.
	<b>SMS</b>	You have a new message.
	<b>Missed call</b>	You have missed a call.
	<b>Call diverts</b>	All your incoming voice calls are being forwarded to a number.
	<b>Headset</b>	The headset is plugged into the phone.
	<b>Alarm</b>	The alarm clock is activated.
	<b>GSM network</b>	Your phone is connected to a GSM network. The more bars are shown the better the reception is.
	<b>Flight Mode</b>	Flight mode is activated.
	<b>Bluetooth</b>	Bluetooth is activated.

# Getting started

## Insert SIM card and Charge the battery

Learn about installing SIM card and charging the battery for the first use.

### Insert SIM card

1 Remove the back cover.

2 Take out the battery.

3 Insert the SIM card.

4 Install the battery.

5 Replace the back cover.

## Charge the battery

A new battery is partially charged. The battery icon in the upper-right corner shows the battery level of charging status.

### \* Tips:

- You can use the phone while it is charging.
- Keeping the charger plugged to the mobile phone when the battery is fully charged will not damage the battery. The only way to turn off the charger is to unplug it, so it is advisable to use an easily accessible power socket.
- If you do not intend to use your phone for several days, we recommend that you remove the battery.
- If a fully charged battery left unused, it will lose its charge over time.
- If a battery is being used for the first time or the battery has not been used for a prolonged period, it may take longer time to recharge.

## Insert a Micro SD card (Memory card)

You can expand the memory of your phone by adding a micro SD card.

- 1 Push down the card holder and lift it up. Align your micro SD card with the slot. Put it in place.
- 2 Press down the card holder and pull it until it is locked.

## Customize your phone

Customize your phone to match your preferences.

### Set clock

- 1 On the home screen, go to **Menu>Settings> Phone settings > Time & date.**
- 2 Select **Set time/date:** use the numeric key to enter the digits.

### SIM Settings

- 1 Check that your phone is turned on. Enter the PIN code if required.
- 2 Go to **Menu>Settings>Dual SIM>Set SIM name,** name your SIM card.
- 3 Go to **Menu>Settings>Dual SIM>Standby mode** to activate the dual cards or one card.

#### Note:

- The PIN code is preconfigured and communicated to you by your network operator or retailer.
- If you enter an incorrect PIN code three times in succession, your SIM card will be blocked. To unblock it, you must request the PUK code from your operator.
- If you enter an incorrect PUK code ten times in succession, the SIM card will be locked permanently. When this happens, please contact your network operator or retailer.

## Using your phone

### Use basic call functions

#### Make a call

- 1 Enter the phone number.
- 2 Press  to dial the number.
- 3 Press  to hang up.

#### Tips:

- For international calls, long press  to enter the "+" sign for the international prefix.

#### Answer and end a call

- 1 Press  to answer the call.
- 2 Press right soft key  to select handsfree mode.
- 3 Press  to hang up.

## Use speed dial

On the home screen, you can call a number by long pressing a numeric key.

To assign a contact to a speed-dial key:

- 1 Select **Contacts>Options>Others>Speed dial**.
- 2 Choose a numeric key to add a number.

## Make an emergency call

Without a SIM card in phone, you can press numeric keys to make the emergency call. In Europe, the standard emergency number is 112; in the UK, it is 999.

## Receive and send messages

You can use the **Message** menu to send text message.

- 1 Select **Message>Write message>New SMS/MMS**.
- 2 Write your text message.
- 3 Press **Options>Add** to add multimedia contents (picture, sound, attachment or bookmark text).
- 4 Press **Options>Send** to send the message.

## Enter text

Your mobile phone supports a number of text entry methods, English input, numeric input and symbol input.

Keys:

Keys	Function
	Enter symbols and punctuations.
	Delete the previous character.
	Select the character on the screen.
	Select or confirm a character.
	To browse the candidate character on the previous or next page.

#### Note:

- Depending on the language you select for your phone, the supported input methods may vary.

## Manage your phonebook

Learn about basic phonebook function.

### Add a new contact

- Go to **Contacts**, select **Options>New**.
- Select a location. (**SIM1/SIM2/Phone**).
- Enter the number, and add details as desired.
- Press **Save** to finish saving.

### Search for a contact

- Go to **Contacts**.
- Enter the first few letters of the name in the search bar.
- Select the contact from the list.

### Manage your contacts

You can copy or move contacts between the SIM card and phone, or delete contacts. Go to **Contacts**, press ◀ or ▶ to select the desired option.

## Multimedia

### Media player

Save MP3 music files under the **Audio** folder on your memory card.

### Play music

- Go to **Multimedia>Audio**, select your desired song in the folder.
- Press **Options>Repeat** to repeat playing.
- Using the following keys to control playback:

Function	Definition
	Pause and resume playback.

◀ or ▶	Press the navigation key to select previous or next track.
▲ or ▼	Press the navigation key ▲ or ▼ to adjust volume.
☐	Return to the previous menu.
🏠	Return to the home screen.

### Note:

- When listening to music, adjust the volume to a moderate level. Continuous exposure to high volume may impair your hearing.

## FM radio

### Listen to a radio station

- 1 Plug the supplied headset into your phone.
- 2 Go to **FM radio**. It starts scanning automatically and save the available channels.
- 3 Press the navigation key ◀ or ▶ to select a channel.
- 4 Press the navigation key ▲ or ▼ to adjust the volume.
- 5 Press ☐ to turn off FM radio.

## Tools

### Alarm

Learn about how to set and use an alarm. You can set up three alarms.

#### Set an alarm

- 1 Go to **Tools>Alarm**.
- 2 Select an alarm, press  to edit the alarm.
- 3 Press left soft key ☐ to save it.

#### Turn off an alarm

- 1 Go to **Tools>Alarm**.
- 2 Select the alarm you want to turn off, press ☐ **Off**.

## Stop an alarm

When the alarm rings,

- Select **Off**: The alarm stops.
- Select **Snooze**: The alarm will sound again after the set **Snooze(Mins)** interval.

## Bluetooth

Your phone can connect to a compatible Bluetooth device for exchanging data.

### Connect to a Bluetooth device

- 1 Go to **Connectivity>Bluetooth**, press left soft key  to turn on the Bluetooth function.
- 2 Select **Paired devices>Add new device**, a list of available Bluetooth devices appears.
- 3 Select the device you wish to connect and press .
- 4 The pairing is made if your pairing request is accepted by the other part.

### Send files via Bluetooth

- 1 Go to **My files**, select the file you want to send.
- 2 Press **Options>Send>Via Bluetooth**.
- 3 Select a device.
- 4 Press  to start sending the file.

### Receive files via Bluetooth

- 1 Go to **Bluetooth**, turn on the visibility.
- 2 Accept the request.

#### \* Tips:

- If you do not use the Bluetooth feature for some time, you should deactivate it in order to conserve battery power.

## Internet

You can use this function to browse the Internet. Consult your network operator for the service subscription, data account information, and WAP settings.

### Access web sites

- 1 Go to **Connectivity>Internet>Input URL**, enter your desired websites.
- 2 Press **Options>Open** to access the website.
- 3 Select **Options>Save>bookmark**. You can add your favorite websites to bookmarks.

### Browse settings

Go to **Internet>Settings**, you can set the default homepage, choose the card for accessing the websites, choose the data account, and set other options to customize the browse.

## Settings

### Dual setting & Profiles

See “Customize your phone” on page 6.

## Call settings

Function	Definition
<b>Call divert</b>	Divert incoming calls to your voice mailbox or another phone number.
<b>Call waiting</b>	Get informed of an incoming call when on the phone (network-dependent).
<b>Call barring</b>	Set limits to your incoming and outgoing calls.
<b>Hide ID</b>	Select to hide ID, display own ID or display ID by network.
<b>Line switching</b>	Operator-dependent function, please contact the local operator for details.
<b>Others</b>	Set advanced settings of calling.
<b>Blacklist</b>	Turn on/off blacklist function and set the numbers to be rejected.
<b>Call time minute reminder</b>	Set reminder when the call time reaches the setting time.
<b>Auto redial</b>	Keep redialing the number that fails to go through.
<b>Auto record</b>	Auto record your incoming and outgoing calls.

## Phone settings

Function	Definition
<b>Time&amp;Date</b>	Set the clock of the phone.
<b>Auto power on/off</b>	Set time for the phone to be switched on/off automatically.
<b>Language settings</b>	Select a language for your phone.
<b>Shortcut settings</b>	Select a navigation key as direct access to a menu.
<b>Auto keypad lock</b>	Set a keypad span for the keypad to be locked automatically.

<b>Security</b>	This menu allows you to use passwords to protect your phone.
<b>Restore factory settings</b>	Restore your phone settings to the default values. You need to enter your phone lock password(1122 by default).

## Display

Function	Definition
<b>Wallpaper</b>	Select an image as the wall paper of your phone.
<b>Contrast</b>	Set the brightness of backlight.
<b>Backlight</b>	Set the duration of backlight.

## Network settings

Function	Definition
<b>Network account</b>	Set the network account.
<b>Network selection</b>	Select the network for your phone (service subscription dependent). Automatic search mode is recommended.

# Safety & Precaution

## Precaution

### Keep your phone away from small children

Keep your phone and all accessories out of the reach of small children. Small parts may cause choking or serious injury if swallowed.

### Radio Waves

Your phone transmits/receives radio waves in the GSM frequency.

Check with the vehicle manufacturer that electronic equipment used in your vehicle will not be affected by radio energy.

### Switch off your phone...

Turn off the phone when in an aircraft. The use of mobile phones in an aircraft may be dangerous for the operation of the aircraft, disrupt the mobile phones network and may be illegal.

In hospitals, clinics, other health care centers and anywhere else where you may be in the close vicinity of medical equipment.

In areas with a potentially explosive atmosphere (e.g. petrol stations and also areas where the air contains dust particles, such as metal powders). In a vehicle transporting flammable products or a vehicle powered by liquefied petroleum gas (LPG). In quarries or other areas where blasting operations are in progress.

### Your mobile phone and your car

Avoid using your phone while driving and obey all regulations that restrict the use of mobile phones while driving. Use hands free accessories to increase your safety when possible. Ensure that your phone and car kit do not block any air bags or other security devices fitted in your car.

### Handle your phone carefully and sensibly

For the optimal and satisfactory operation of the phone you are recommended to use the phone in the normal operating position.

- Do not expose your phone to extreme temperatures.
- Do not immerse the phone in any liquid; if your phone is damp, switch it off, remove the battery and let them dry for 24hrs before using them again.
- To clean the phone, wipe it with a soft cloth.
- In hot weather or after prolonged exposure to the sun (e.g. behind a window or a wind screen), the temperature of your phone's casing might increase. Be very careful in this case when picking up your phone and also avoid using it with an ambient temperature over 40°.

### Protect batteries from damage

You should only use Philips Authentic Accessories, as the use of any other accessories may damage your phone and may be dangerous, and will make all guarantees for your Philips phone null and void. The use of an unspecified type of battery may also cause an explosion.

Make sure damaged parts are replaced immediately by a qualified technician and that they are replaced with genuine Philips replacement parts.

- Your phone is powered by a rechargeable battery.
- Use specified charger only.
- Do not incinerate.
- Do not deform or open the battery.
- Do not allow metal objects (such as keys in your pocket) to short circuit the battery contacts.
- Avoid exposure to excessive heat (>60° C or 140° F), moisture or caustic environments.

### Environmental care

Remember to observe the local regulations regarding the disposal of the packaging materials, exhausted batteries and old phone and please promote their recycling. Philips has marked the battery and packaging with standard symbols designed to promote the recycling and appropriate disposal of your eventual waste.

: The labeled packaging material is recyclable.

: A financial contribution has been made to the associated national packaging recovery and recycling system.

:The plastic material is recyclable (also identifies the type of plastic).

### Hearing Protection

When listening to music, adjust the volume to a moderate level.  
Continuous exposure to high volume may impair your hearing.

### WEEE Marking in the DFU: "Information to the Consumer"

#### Disposal of your old product

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

When this crossed-out wheeled bin symbol is attached to a product it means the product is covered by the European Directive 2002/96/EC

Please inform yourself about the local separate collection system for electrical and electronic products.

Please act according to your local rules and do not dispose of your old products with your normal household waste. The correct disposal of your old product will help prevent potential negative consequences for the environment and human health.

This device may contain commodities, technology or software subject to export laws and regulations from the US and other countries. Diversion contrary to law is prohibited.

## Tips

### Pacemakers

If you have a pacemaker:

- Always keep the phone more than 15 cm from your pacemaker when the phone is switched on, in order to avoid potential interference.
- Do not carry the phone in a breast pocket.
- Use the ear opposite to the pacemaker to minimize the potential interference.
- Switch off your phone if you suspect that interference is taking place.

### Hearing aids

If you are a user of a hearing aid, consult your physician and hearing aid manufacturer to learn whether your particular device is susceptible to cellular phone interference.

### How to prolong the battery life of your phone

To have your mobile phone function properly, sufficient battery power is important. For the power-saving purpose, do the following, if applicable:

- Turn off the Bluetooth function of your phone.
- Set the backlight level and duration of your phone to a low value.
- Turn on the auto keypad lock, turn off the key sounds, tap vibration, or vibration alerts.
- Establish GPRS connection when needed. Otherwise, your phone will keep searching for GPRS connection, and drain your battery power.
- Turn off your phone if there is no coverage. Otherwise, the phone will keep searching for network, and drain your battery power.

## Troubleshooting

### The phone does not switch on

Remove/reinstall the battery. Then charge the phone until the battery icon stops scrolling. Unplug the charger and try to switch the mobile on.

### The display shows **BLOCKED** when you switch on the phone

Somebody tried to use your phone but didn't know the PIN code nor the unblocking code (PUK). Contact your service provider.

### The display shows **IMSI failure**

This problem is related to your subscription. Contact your operator.

### **Your phone doesn't return to idle screen**

Long press the hang-up key or switch off the phone, check that the SIM card and the battery are installed correctly and switch it on again.

### **The network symbol is not displayed**

The network connection is lost. Either you are in a radio shadow (in a tunnel or between tall buildings) or you are outside the network coverage area. Try from another place, try to reconnect to the network (especially when abroad), check that the antenna is in place if your mobile has an external antenna, or contact your network operator for assistance/information.

### **The display doesn't respond (or the display responds slowly) to key presses**

The display responds more slowly at very low temperatures. This is normal and does not affect the operation of the phone. Take the phone to a warmer place and try again. In other cases please contact your phone supplier.

### **Your battery seems to over heat**

You might be using a charger that was not intended for use with your phone. Make sure you always use the Philips authentic accessory shipped with your phone.

### **Your phone doesn't display the phone numbers of incoming calls**

This feature is network and subscription dependent. If the network doesn't send the caller's number, the phone will display Call I or Withheld instead. Contact your operator for detailed information on this subject.

### **You can't send text messages**

Some networks don't allow message exchanges with other networks. First check that you have entered the number of your SMS centre, or contact your operator for detailed information on this subject.

### **You can't receive and/or store JPEG pictures**

A picture may not be accepted by your mobile phone if it is too large, if its name is too long, or if it doesn't have the correct file format.

### **You feel that you have missed some calls**

Check your call divert options.

### **When charging, the battery icon shows no bar and the outline is flashing**

Only charge the battery in an environment where the temperature does not go below 0°C (32°F) or above 50°C (113°F).

In other cases please contact your phone supplier.

### **The display shows SIM failure**

Check that the SIM card has been inserted correctly. If the problem persists, your SIM card may be damaged. Contact your operator.

### **When attempting to use a feature in the menu, the display shows NOT ALLOWED**

Some features are network dependent. They are only available, therefore, if the network or your subscription supports them. Contact your operator for detailed information on this subject.

### **The display shows INSERT YOUR SIM CARD**

Check that the SIM card has been inserted correctly. If the problem persists, your SIM card may be damaged. Contact your operator.

### **The autonomy of your phone seems lower than indicated on the user guide**

The autonomy is linked to your settings (e.g., ringer volume, backlight duration) and the features you use. To increase the autonomy, and whenever possible, you must deactivate features you do not use.

### **Your phone doesn't work well in your car**

A car contains many metallic parts that absorb electromagnetic waves which can affect the phone's performance. A car kit is available to provide you with an external antenna and enables you to make and receive phone calls without handling the handset.

#### Note:

- Check with the local authorities whether or not you are allowed to use the phone while driving.

### **Your phone is not charging**

If the battery is completely flat, it might take several minutes of pre-charge (up to 5 minutes in some cases) before the charging icon is displayed on the screen.

### **The picture captured with the phone camera is not clear**

Make sure that the camera lens on both sides is clean.

## **Trademark Declaration**

Philips PHILIPS and PHILIPS' Shield Emblem are registered trademarks of Koninklijke Philips N.V. manufactured by Shenzhen Sang Fei Consumer Communications Co., Ltd. Under license from Koninklijke Philips N.V..

## **FCC Compliance**

This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.

Caution: Changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

## **Health and safety information**

### **Radio Frequency (RF) Energy**

This model phone meets the government's requirements for exposure to radio waves.

This phone is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government:

The exposure standard for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6W/kg. Tests for SAR are conducted using standard operating positions accepted by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.

The highest SAR value for the model phone as reported to the FCC when tested for use at the ear is 1.391 W/kg and when worn on the body, as described in this user guide, is 1.346 W/kg (Body-

worn measurements differ among phone models, depending upon available enhancements and FCC requirements).

While there may be differences between the SAR levels of various phones and at various positions, they all meet the government requirement.

The FCC has granted an Equipment Authorization for this model phone with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this model phone is on file with the FCC and can be found under the Display Grant section of <http://www.fcc.gov/oet/fccid> after searching on

FCC ID: VQRCTE130

For body worn operation, this phone has been tested and meets the FCC RF exposure guidelines for use with an accessory that contains no metal and the positions the handset a minimum of 1 cm from the body. Use of other enhancements may not ensure compliance with FCC RF exposure guidelines. If you do not use a body-worn accessory and are not holding the phone at the ear, position the handset a minimum of 1 cm from your body when the phone is switched on.

## Limited warranty

### 1. What Does This Limited Warranty Cover?

Philips warrants to the original retail purchaser (“Consumer” or “You”) that this Philips cellular product and all accessories originally provided by Philips in the sales package (“Product”) are free from defects in materials, design and workmanship under normal use in accordance with the operating instructions and pursuant to the following terms and conditions. This limited warranty extends only to the Consumer for Products purchased and used in the original country of purchase. The limited warranty is valid only in Philips’ intended country of sales of the product.

### 2. How Long is The Limited Warranty Period?

The limited warranty period for the Product extends for ONE (1) YEAR from the date of purchase of the Product, documented by valid proof of purchase. The limited warranty for original Philips rechargeable battery extends for six (6) months from the date of purchase.

### 3. What Will Philips Do if The Product is Not Free From Material Defects in Materials and Workmanship During The Limited Warranty Period?

During the limited warranty period, Philips or its authorized service representative will, at its option either repair or replace, without charge for parts or labour, a materially defective Product with new or refurbished parts or Product and return such repaired or replaced Product to the Consumer in working condition. Philips will retain defective parts, modules or equipment.

Repaired or replaced Product will be covered by this limited warranty for the balance of the original limited warranty period or ninety (90) days from the date of repair or replacement whichever is longer. Repair or replacement of Product, at Philips’ option is your exclusive remedy.

### 4. What is Not Covered By This Limited Warranty?

This limited warranty does not cover:

- Product that has been subjected to misuse, accident, shipping or other physical damage, improper installation, abnormal operation handling, neglect, inundation, fire, water or other liquid intrusion; or
- Product that has been damaged due to repair, alteration, or modification by anyone not authorized by Philips; or
- Product that has reception or operation problems caused by signal conditions, network reliability or cable or antenna systems; or
- Product defects or problems caused by uses with non-Philips products or accessories; or
- Product which warranty/quality stickers, product serial number or electronic serial number has been removed, altered or rendered illegible; or
- Product purchased, used, serviced, or shipped for repair from outside the original country of purchase, or used for commercial or institutional purposes (including but not limited to Products used for rental purposes); or
- Product returned without valid proof of purchase or which proof of purchase has been altered or is illegible.
- Normal wear and tear or Force Majeure.

### 5. How Do You Get Warranty Service?

- a) Return the Product to an authorized service center of Philips. You may contact the local Philips office for the location of the nearest authorized service center.
  - b) The SIM card must be removed from the Product before it is given to Philips. Philips assumes no liability for damaged or loss of the SIM card or the data contained therein.
  - c) If the Product failure is not covered by this limited warranty, or this limited warranty is inapplicable, void or invalid due to any terms and conditions stated herein, the Consumer will be charged for the cost of repair or replacement of the Product and all other related cost incurred in repairing or replacing the Product.
  - d) **IMPORTANT** - you are required to return the Product together with a valid proof of purchase which must identify the point of purchase, date of purchase, Product model and Product serial number clearly.
6. Other Limitation: This Warranty is The Entire Agreement.

EXCEPT FOR THE EXPRESS WARRANTIES SET FORTH ABOVE AND THOSE IMPLIED BY LAW AND WHICH CANNOT BE EXCLUDED OR MODIFIED BY AGREEMENT, PHILIPS PROVIDES NO OTHER WARRANTY WHETHER EXPRESS OR IMPLIED (WHETHER BY STATUTE, UNDER THE OPERATION OF LAW OR OTHERWISE) AND SPECIALLY DISCLAIMS ANY WARRANTY OF SATISFACTORY QUALITY MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

PHILIPS' TOTAL LIABILITY FOR DAMAGES RELATING TO OR ARISING OUT OF THE PURCHASE OR USE OF THE PRODUCT, REGARDLESS OF THE TYPE OR CAUSE OF SUCH DAMAGE OR THE FORM OR CHARACTERISATION OF THE CLAIM ASSERTED (E.G. CONTRACT OR TOPIT), SHALL NOT EXCEED THE ORIGINAL PURCHASE PRICE PAID FOR THE PRODUCT.

HOWEVER IN NO EVENT SHALL PHILIPS BE LIABLE FOR ANY PUNITIVE, SPECIAL, INCIDENTAL, INDIRECT OR CONSEQUENTIAL DAMAGES (INCLUDING BUT NOT LIMITED TO THE LOSS OF USE, LOSS OF TIME, INCONVENIENCE, COMMERCIAL LOSS, LOST PROFITS, LOST BUSINESS OPPORTUNITIES, COST OF SUBSTITUTION OF GOODS OR SERVICES, INVESTMENTS, DAMAGE TO GOODWILL OR REPUTATION, OR LOSS OF DATA AND CLAIMS BY THIRD PARTIES) RESULTING FROM PURCHASE OR USE OF THE PRODUCT, TO THE FULLEST EXTENT ALLOWED BY LAW, WHETHER OR NOT PHILIPS HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THESE LIMITATIONS SHALL APPLY NOTWITHSTANDING THE FAILURE OF THE ESSENTIAL PURPOSE OF ANY LIMITED REMEDY.

This limited warranty represents the complete and exclusive agreement between the Consumer and Philips with respect to this cellular Product and it supercedes all prior agreements between the parties, oral or written, and all other communications between the parties relating to the subject matter of this limited warranty. No carrier, retailer, agent, dealer, employee, thereof, or employee of Philips is authorized to make modifications to this limited warranty and you should not rely on any such representation.

This limited warranty does not affect the Consumer's statutory rights under applicable national laws in force.
