

Date: June 11, 2020

Subject: **FCC/ISED Class II Permissive Change Letter**

**Applicant's complete, legal business name: Amimon, Ltd.**

**Equipment Product Model: AMNPTTX01**

**FCC ID of Original Grant: VQSAMNPTTX01      Original Grant Date: 21 March 2016**

**IC of Original Grant: 7680A-AMNPTTX01      Original Grant Date: 8 June 2016**

**Change Contents:**

C2PC is required on the physical difference appearance of the digital section between the original and the new appearance of the module.

Physical difference is an update of the digital section ONLY, by part substituting the microcontroller, HDMI receiver and BBIC into one IC, integrating the 3 ICs functionality and performance.

The functionality of the module is the identical.

The RF performance (frequency, power, etc.) is un-changed the control of the RF IC remains as in the original approval.

There is NO change in basic frequency determining and stabilizing circuitry (including clock or data rates), frequency multiplication stages, basic modulator circuit or maximum power or field strength ratings.

Sincerely,

Ron Yoge
