Charging your TZ-901 E-Reader

To charge your TZ-901 E-Reader:

Ⓐ Connect the micro USB cable to the power adapter.

Ⓑ Plug the micro USB connector into your TZ-901 E-Reader.

Ⓒ Plug the power adapter into a grounded power outlet.

Charge your TZ-901 E-Reader for six (6) hours before using it in battery mode for the first time.

# Turning your TZ-901 E-Reader on

To turn your TZ-901 E-Reader on, press the power button for about three (3) seconds.

NOTES:

- To wake your TZ-901 E-Reader from standby mode, press the power button.

- In the event that your TZ-901 E-Reader becomes unresponsive, press and hold the power button and the Home button at the same time to restart your TZ-901 E-Reader.

Saving files in your TZ-901 E-Reader

To save files from your compter to your TZ-901 E-Reader:

1. Plug the micro USB connector into your TZ-901 E-Reader.
2. Plug the micro USB cable to your computer's USB port.
3. On your TZ-901 E-Reader, tap **Connect to PC**.
4. On your computer, open **Computer > TZ-901** then save your files in your TZ-901 E-Reader.

   IMPORTANT! To save audio files and book files, ensure that you save them in their corresponding folders. Save the audio files in **audio** folder and e-book files in **book** folder.
   NOTE: Your TZ-901 E-Reader supports e-books in ePub, PDF, CBZ, and TXT formats.

Installing your TZ-901 E-Reader to the leather holster
To install your TZ-901 E-Reader to the leather holster:

1. Open the bundled leather holster.

2. Place the TZ-901 E-Reader facing up then insert and slide it to the leather holster until it fits to the holders, as shown.

Appendices

Federal Communications Commission Statement

This device complies with FCC Rules Part 15. Operation is subject to the following two conditions:

- This device may not cause harmful interference.
- This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the Federal Communications Commission (FCC) rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment causes harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by doing one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The antenna(s) used for this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

RF Exposure Information (SAR)

This device meets the government's requirements for exposure to radio waves. This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

The exposure standard employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. Tests for SAR are conducted using standard operating positions accepted by the FCC with the EUT transmitting at the specified power level in different channels.

The highest SAR value for the device as reported to the FCC is 1.27 W/kg when placed next to the body.

The FCC has granted an Equipment Authorization for this device with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this device is on file with the FCC and can be found under the Display Grant section of www.fcc.gov/oet/ea/fccid after searching on FCC ID: VRSTZ901.
