Subject: 11 July 2007: Approval of changes, Jotron L-3 FFSVR

Our ref.: CS07/188/510 (Jotron)

Dear Eirik,

I have pleasure of informing you of Cospas-Sarsat approval of changes to beacon model 'Tron S-VDR Capsule' (TAC-155), which include the new FRM module 'L3-FRM' and new model name 'L3-FFSVDR', effective 11 July 2007.

In this case we do not plan to re-issue the Type Approval Certificate and will amend the web report to reflect the above said changes. I will be grateful to you if you could review the attached web-report draft and advise if its content is OK with you or provide your comments.

Many thanks.
