Mr. Frank Løke  
Jotron AS  
Innlaget 230, NO-3185  
Skoppum, Norway

Subj: JOTRON TRON 40VDR & TRON 60GPS EPIRBS

Dear Mr. Løke:

We have reviewed the information submitted in your emails dated September 20, 2019, and November 21, 2019, requesting approval of the Jotron AS model Tron 40VDR and model Tron 60GPS in accordance with 46 CFR 161.011 as emergency position indicating radiobeacons (EPIRBs).

In compliance with Federal Communications Commission (FCC) requirements, our review verifies performance as a radiobeacon for marine use to the applicable Radio Technical Commission for Maritime Services (RTCM) standards. Hence, USCG approval certificates are not issued for marine radiobeacons.

Based on the information provided, including the TUV SUD test reports, Tron 40 VDR Document 75946712-01, Issue 01, dated 08 November 2019, and Tron 60 GPS Document 75946736-01, Issue 1, dated 08 November 2019, indicating compliance with 47 CFR 80.1061(c)(2), we conclude that the subject devices meet the relevant requirements of the RTCM Standard 11000.4.

This letter was delivered electronically to [Frank.Loke@jotron.com](mailto:Frank.Loke@jotron.com). No hard copies will be provided. You are welcome to print as many copies as you wish. If you have any follow-up questions, please contact Mr. Marty Jackson at +1-202-372-1391 or [typeapproval@uscg.mil](mailto:typeapproval@uscg.mil). Please reference ID#: 2019-0451 in any correspondence related to this project.

Sincerely,

B. A. BALDWIN  
Chief, Lifesaving and Fire Safety Division  
U.S. Coast Guard  
By direction
