Subject: Request for Class II Permissive Change  
(FCC Inquiry Tracking # 383786)

Gentlemen:

We, BEI Industrial Encoders, would like to request a Class II Permissive Change to the operation of BEI's Swiftcomm 2.4 GHz FHSS Transceiver Radio Module.

FCC ID: VSR-SWIFTCOMM07 and IC ID: 7445A-SWIFTCOMM07

Currently, out of the available 78 channels, the software allows a maximum of 16 active channels. To allow the same device to be sold in both Europe and the U.S., we have implemented a software change to increase the active channels to 20. The power output, the 78 available channels and the channel hop sequence protocol will be identical to the original grant.

This request is made under the provisions of Permissive Change Rules of Section 2.1043.

If you have any questions, please do not hesitate to contact us at (805) 968-0782.

Sincerely,

A handwritten signature in black ink, appearing to read 'Glenn Avolio'.

Glenn Avolio  
General Manager
