

Model: TB-2455CK

Feature

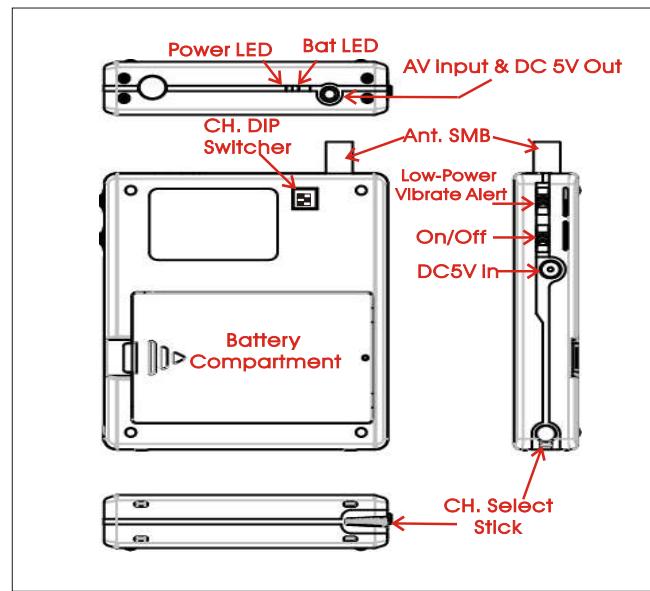

- Wired covert cameras double its value when work in conjunction with Portable Wireless A/V Transmitter & Receiver Kit and become wireless cameras.
- Vibration Alert when battery power is low
- Brilliant looking Mag-Aluminum alloy housing, great solution for heat sink
- Receiver utilizes 1800mAh ultra high capacity removable FUJI camcorder battery
- Single general stereo jack socket on transmitter for A/V signal output and power supply, hassle free on cable plugging
- Tx Use high capacity FUJI camcorder removable battery. Defective built-in battery problem is now a thing of past

Specification

Item Number	TB-2455CK
Frequency Band	2400MHz
Available Channel	4 Ch
Output Power	1 mW
Trans. Range	100 Meter
Low-Batt. Alert	Yes, Vibration
AC Charger	5 V / 2A
DC Battery	3.6V / 1800mA
Battery Charge Time	2 Hrs
Battery Life Time	120 Munites
Weight (TX)	65 g
Dimension (TX)	78x 66x 15 mm
Match Work Receiver	RX-2460/RX-2480B

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- . Reorient or relocate the receiving antenna.
- . Increase the separation between the equipment and receiver.
- . Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- . Consult the dealer or an experienced radio/TV technician for help.

FCC Caution :To assure continued compliance, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. (Example - use only shielded interface cables when connecting to computer or peripheral devices).

FCC Radiation Exposure Statement

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.
