

Handset Keys and Functions

Connecting your cell phone of the BLUE CARPHONE CT-2000:

Make sure the CARTEL logo is displayed on the LCD of the CT-2000. The CT-2000 has an auto pair feature. When the CARTEL Logo is displayed on the LCD you're ready to pair with another device.

Go into the Bluetooth menu of your cell phone and make sure Bluetooth is on.

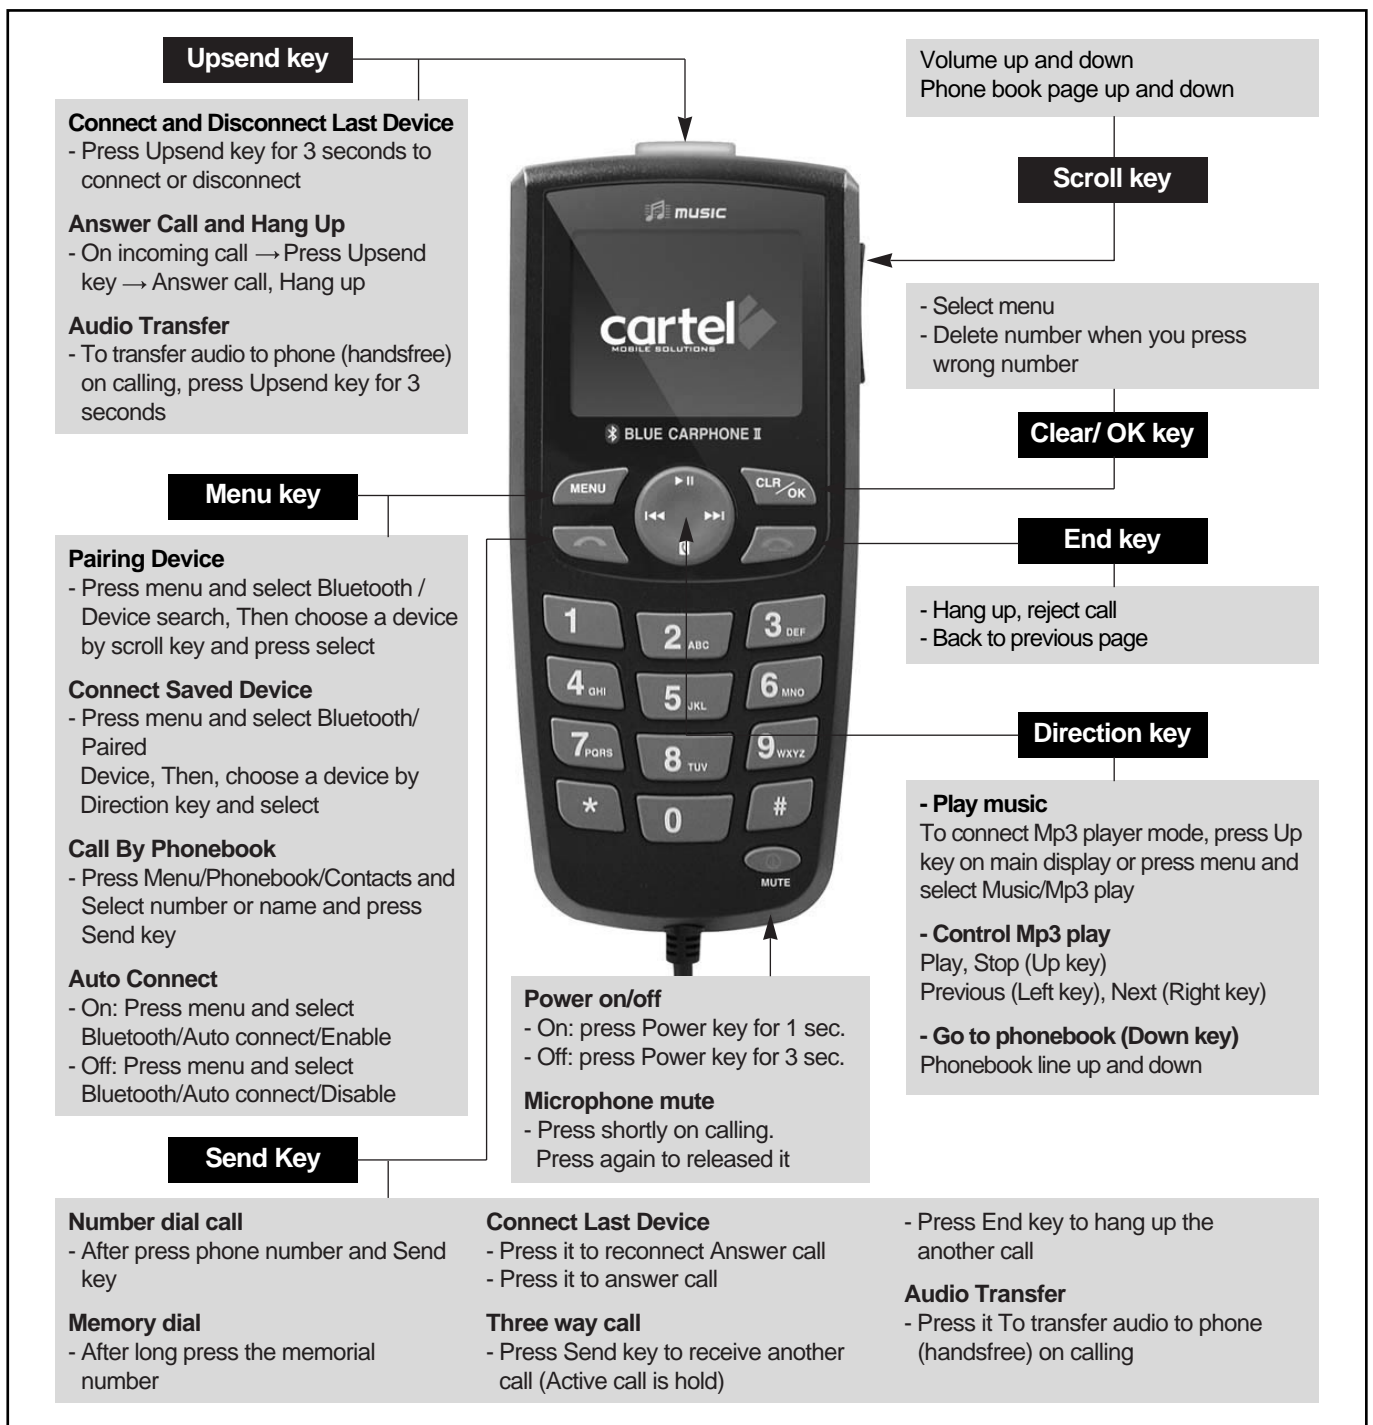

Select "Search for new devices". Select "CARTEL II" from the list of found devices.

When prompted, enter pass key "0000". Your cell phone is now paired and ready for use.

Every time you start your car, the CT-2000 will search for your cell phone and connect to it automatically.

After you shut off your car, the CT-2000 will stay on for 20 seconds UNLESS you are in the middle of a conversation. After the call is ended the CT-2000 will shut down after 20 seconds.

Note that the CT-2000 can hold up to 5 phones in its memory.

Warning

FCC compliance Information

This device complies with part 15 of FCC Rules.

Operation is subject to the following two conditions:

1. This device may not cause harmful interference and
2. This device must accept any interference received.
Including interference that may cause undesired operation.

Information to User

This equipment has been tested and found to comply with the limits for a Class B digital device, Pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio Frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC WARNING

This equipment may generate or use radio frequency energy. Changes or modifications to this equipment may cause harmful interference unless the modifications are expressly approved in the instruction manual. The user could lose the authority to operate this equipment if an unauthorized change or modification is made.
