Dear Sir/Madam,

Re: Letter of Similarity

We, IDP Corp., Ltd., declare the differences for between original model and variant models.

-Product: Card Printer
-Model name: CP55
-Variant Model name: CP55-S

- ➔ Flipper is needed for double-sided print, flipper would make the card turn to print on the other side. Some variant models do not print on double sided, so they do not need flipper.
- ➔ Comparing to the model CP55, all the variant models have not changed RF parameters.

-Variant Model name: CP55-D

- ➔ Simplified derivation based on buyer's model name.
- ➔ Comparing to the model CP55, all the variant models have not changed RF parameters.

Sincerely Yours,

A handwritten signature in black ink, appearing to read 'Yong-Tae KIM', is written over a horizontal line.
