

Wireless PTT

- Velcro the wireless PTT to finger or other devices such as motorcycle handle bar or a gun shaft.
- Then turn the radio back on and adjust the volume to appropriate level.
- Press and hold the Wireless PTT to start transmitting and release to receive.
- If you feel uncomfortable with the Default Ear Tip in your ear, replace with the Small Ear Tip.

Notice on Wireless PTT:

- 1.You should check that the serial number on the Wireless PTT matches that of the Receiving PTT. If they do not match, contact your vendor or follow the instruction of Rematching wireless PTT.
- 2.Each time before connecting the wireless PTT adaptor to the radio, please turn off the radio and then turn it on after the adaptor is connected.
- 3.Keep the Receiving PTT at least 3 cm away from the antenna when using. Otherwise the working range could be shortened. A working range of 1.5m between the Wireless PTT and Receiving PTT is guaranteed if the instruction is followed.
- 4.The earpiece should have a roger beep and the radio on/off LED should be turned on when the wireless PTT is pressed.

Wireless PTT Transmitting	
Dimension	32.0*25.0*15.0mm
