How to deal with disc

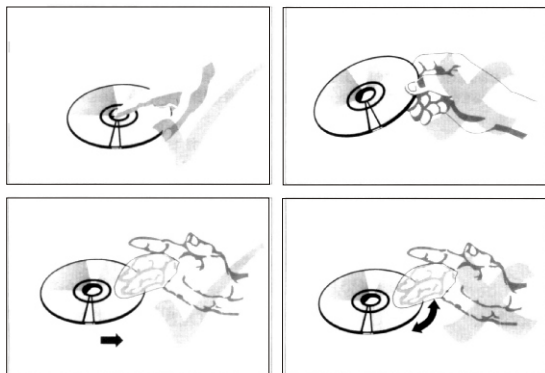

How to hold disc

Do not touch the unlabeled side of the disc..

When there are stains on face of disc

Wipe gently with a wet cloth and then with dry one.

When a disc is brought in from a cold environment to a hot one, condensation can form on the face of the disc. Wipe down with a soft, smooth, dry cloth before using.

Attention:

Do not write on the unlabeled side of the disc.

Do not use chemical solutions to clean the DVD disc.

Do not stick labels or glue-based notes on the disc.

Do not use disks with glue residue or damaged labels.

Do not use anti-scratching materials or covers, that were not designed for this machine.

Do not put or store disk in the following environments:

Directly under the sunlight, in moist or dusty environments or beside heating elements.

Disc loading

- Load one disc with the data side facing upwards and make sure you do not touch the data side with your fingers.

Once the disc is loaded, the unit will automatically start reading the disc and it will take a few seconds to download the disc initial data, thereafter the disc type will be displayed in the left upper corner of the LCD screen and the unit will start playing the disc.

Dear Customer:

We thank you for purchasing the Multimedia . We wish you many pleasant hours of watching DVD's or listening to your favorite music. Personal Safety has been taken in consideration in the design and manufacturing this product, however any improper use or operation may result in an electrical shock, fire and/or any other hazards. To prevent these hazards it is strongly recommended to read this manual thoroughly and adhere to the following precautions:

Important Safety Instructions

The lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of uninsulated dangerous voltage within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

WARNING:

FCC regulations state that any change or modification to the equipment, not expressly approved by maker or its authorized parties, could void user's authority to operate this equipment.

NOTE

- Please dispose empty batteries according the regulations in your country
- All On Screen Displays (OSD) and Pictures will be based on the English version.
- Design and Specifications may vary in the manual from the actual product in use.

CAUTION:

The unit employs a laser system.

To ensure proper use of this product. Please read this owner's manual carefully and retain for future reference. Should the require maintenance, contact an authorized service location-see service procedure.

Use of controls, adjustments or the performance of procedures other than those specified herein may result in hazardous radiation exposure.

To prevent direct exposure to laser beam, do not try to open the enclosure. Visible laser radiation may be present when the enclosure is opened. Do not stare into beam.

PRODUCT DESCRIPTION

HS70I

- (1) Power
