Installation Specifications

Product Dimensions

Included Hardware

x1 MC-5 Bezel

x1 MC-5 Silicon Cover

x1 Mounting Bracket

x1 Connector A

x4 Tapping Screws

x4 Flange Nut

x2 Dual Riser

Wiring Harness Diagram for WS-MC-5:

Wire Diagram for Connector A

Wire Connector A:

Pin No.	Wire Color	Wire Definition	Pin No.	Wire Color	Wire Definition
1	Black	GND	7	Red	Battery
2	Purple/Black	Rear Right-	8	White/Black	Front Left-
3	Purple	Rear Right+	9	White	Front Right+
4	Blue	Amplifier On	10	Orange	Dim Input
5	Grey/Black	Front Right-	11	Green/Black	Rear Right-
6	Grey	Front Right+	12	Green	Rear Right+

Features

Features Included

- AM & FM
- Bluetooth Streaming, Auxiliary,
- Simple & Secure Bluetooth Pairing for Android & IOS (A2DP/AVRCP 1.4)
- 2.7" LCD Display
- Internal Power Amplifier 4x50W @ 2 Ohm Max Output
- Front & Rear Preamp outputs with fading capability
- Front Panel Mounted Independent Secondary Zone Control –Full Range or Subwoofer
- Day/Night Illumination & Dimming

Hardware Included:

- Silicon cover
- Wiring harness
- Mounting hardware
- Mounting bracket
- MC-5 bezel

WS-MC-5 Controls

Controls allow you to navigate and access MC-5 features.

- 1. Main Control Knob (MCK):** This allows adjustment of main volume, as well as making selections when the SETUP and MENU features are being used. Rotate the MCK to highlight a feature, then depress the MCK to select the highlighted feature.
- 2. Power/Mute:** Press and hold this button for power On/Off. Short press this button to mute/unmute the volume of all zones. The MC-5 will confirm the volume is muted in the display.
- 3. Setup:** Allows access to controls that affect all functions of the MC-5. Rotate the MCK until the desired function is highlighted, then depress the MCK for access.
- 4. Menu:** Allows access to Presets in Radio mode.
- 5. Zone 2 - :** Decrease the output sent to the zone 2 pre-amp outputs.
- 6. Zone 2 + :** Increase the output sent to the zone 2 pre-amp outputs. **Note** – The main volume control will still override final output of front, rear & zone 2 outputs.
- 7. Track Back/ Tuner Seek Down:** In Bluetooth mode, this will go back to the previous track. In Radio mode, this will seek out the strongest station in decreasing frequency order.
- 8. Track Forward/ Tuner Seek up:** In Bluetooth mode, this will go forward to the next track. In Radio mode, this will seek out the strongest station in increasing frequency order.
- 9. Source (SRC):** Allows access to three different sources.
- 10. Band:** This enables changing the Radio from FM1/FM2/FM3/AM1/AM2 modes.
- 11. Play/Pause:** This is active when using the Bluetooth streaming. Press once for pause, once again for play. This also enables changing between presets while in FM1/FM2/FM3/AM1/AM2 modes.

Setup Menu

Allows access to controls that affect all functions of the MC-5. Rotate the MCK until the desired function is highlighted, then depress the MCK for access. The functions available are:

Audio

Allows access to the following audio adjustments:

Balance/ Fader: Allows adjustment of the Balance (Left/Right) and Fader (Front Rear) of the main outputs – both powered & pre-amp. Rotate the MCK to highlight the desired function, depress the MCK then rotate the MCK to adjust the function.

Equalization: The MC-5 has 5 different factory equalization settings for the 5 Band equalizer. Setting to off, allows the user to set their own equalization curve. Rotate & depress the MCK to select one of 5 the bands of equalization, rotate the MCK to adjust.

Internal AMP: When bypassing the MC-5's internal amplifier and using solely external amplifiers, set this control in the off position for greater efficiency.

Zone 2: This control changes the label of the zone 2 output to either Full Range or Subwoofer.

Note - This only affects the label shown on the MC-5 Display when the zone 2 front panel controls are adjusted. The zone 2 output is always a mixed mono output - even when in full range.

Tuner Region

The MC-5 is defaulted to receive broadcasts in the USA region. Europe region is also available through this setting.

Day/ Night Mode

Allows the ability to scroll through the display options of Day (white screen/black characters), Night (black screen/ white characters), or Auto. In Auto mode, the display is in Day mode until the vehicle's lights are turned on, then the display goes into Night mode.

Note – In order for the Auto function to operate properly, the Orange wire in the MC-5 harness labeled Dim Input must be wired to a circuit in the vehicle that gets +12V whenever the main lighting switch is turned on.

Software

Allows access to the software menu of the MC-5:

Version: Displays what version of the operating software is currently running on the MC-5. Visit www.wetsounds.com/downloads to see the most up to date MC-5 operating software.

Factory Default

Selecting this will return all settings of the MC-5 back to the original.

Source (SRC)

Allows access to three different sources:

Radio Operation

1. Press SRC, then select the  symbol to access the Radio.
2. To select between FM1/FM2/FM3/AM1/AM2, press the BAND button (#10).
3. Short Press the tuner seek up/down buttons (#7/#8) to automatically seek the next strongest station either up or down.
4. Long press the same buttons to Manually Tune either up or down.

Source Features:

Press MENU while in **Radio Operation** to select between the following features:

- **PRESETS:** Press Presets to display what stations are set in current band in use, then rotate the MCK to highlight a selection, then press the MCK to select that station.
- **ADD PRESETS:** Allows the manual addition of station presets in each band.
- **AUTO STORE:** Will automatically store Presets into the BAND currently being used.

Bluetooth Streaming Operation

1. Press SRC, then select the  symbol to access the Bluetooth streaming input.
2. To connect a Bluetooth compatible device to the MC-5, make sure no other devices are paired to the MC-5, then be sure to enable BT on the device.
3. Search on the device's Bluetooth menu for "WETSOUNDS MC5" and connect with it. The MC-5 will confirm connection on the display.
4. PLAY/PAUSE (#11) and Forward/Reverse Track (#7/#8) will operate when in Bluetooth mode.

AUX Operation

1. Press SRC, then select the  symbol to access the AUX input.

FCC Compliance Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

•Increase the separation between the equipment and receiver.

•Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

•Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
