RE: Long Term CONFIDENTIALITY REQUEST FOR PCS/AWS
Repeater. FCC ID: VUVBDAP19A2123AB

To Whom It May Concern:

This Letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47. We have requested that the following, required to be submitted with this application be permanently withheld from public review.

- PCS/AWS Repeater Internal Electrical design drawings
- PCS/AWS Repeater Parts List

These documents contain detailed system and equipment descriptions and related information about the product, which Cellvine considers to be proprietary, confidential and a custom design; and otherwise, would not release to the general public. Since this design is a basis from which future technology products will evolve, Cellvine feels that this information would be of benefit to its competitors. In addition, this product will only be sold to one Cellular Operator and therefore the requested items above could not be obtained by Competitors or the General Public by simply purchasing the Product.

Please contact me if there is any information you may need.

Sincerely,

A handwritten signature in black ink is written over a rectangular stamp. The stamp contains the text "Cellvine Ltd." in a bold, black, sans-serif font.
