REF: Class II permissive change, pursuant to §2.1043, for FCC ID: VV7-MBMF3507G-D

Dear Sir or Madam:

Pursuant to §2.1043, **Ericsson AB** hereby submit a request for Class II permissive change to our Mini-PCle wireless card, model F3507g, FCC ID: **VV7-MBMF3507G-D**.

Description of the changes:

1) The product VV7-MBMF3507G-D will be installed in the following models of notebooks/laptops:

Dell Latitude XT2

The antenna connected for the VV7-MBMF3507G-D is located in the display of these notebooks/laptops and in all the cases it has a gain of less than 3,18 dBi. More details about the antenna position and the gain and type of antennas are provided in the operational description.

2) The above mentioned notebooks/tablet PC may have installed the following co-located transmitters.

Model
Dell Wireless 365

FCCID of Bluetooth modules QDS-BRCM1033

WLAN transmitters can be also installed on the notebook/tablet PC Dell Latitude XT2, but simultaneous transmission of WWAN transmitter (VV7-MBMF3507G-D) and WLAN transmitters is disabled by BIOS configuration. Handover period between WWAN and WLAN transmitting is set to be less than 30 seconds. An specific exhibit describing the BIOS configuration and product functionality is provided with this application.

3) BIOS lock is added to prevent user's installable capability.

Compliance/Responsibility statements:

- Test reports according to Part 22 and Part 24 of the original grant remains valid and applicable and they are representative of the compliance of this module once it is installed in the indicated notebooks/laptops.
- New exhibits to demonstrate compliance with RF exposure requirements are submitted with this application. In the tablet mode, the LCD of second landscape orientation is disabled by BIOS lock to prevent the end users from using the tablet in this position where the WWAN antennas would be in direct contact with the user's body.
- The product remains compliant with all the applicable rules and requirements once installed in the Dell Latitude XT2 according to the configurations covered by this application and host product manufacturer will be instructed to follow the approved configuration.
- Changes in the configurations indicated in this application and final compliance of the host device + modules composite system fall under the responsibility of the host product manufacturer.

Sincerely,

P.A.
