Ref: FCC Class II Permissive change for FCC ID: **VV7-MBMN5321**

Dear Examiner,

This is to request a Class II permissive change for model: **N5321** (FCC ID: **VV7-MBMN5321**) to assess two way authentication process, to allow user installation:

- New exhibit describing two ways authentication process to allow user installation is submitted with this application.

There is no hardware modification made to the applying modular transmitter itself.

Compliance/Responsibility statements:

- Test reports according to Part 15B, Part 22 and Part 24 of the original grant remains valid and applicable and they are representative of the compliance of this module once it is installed in a host device with the provided (or equivalent) two ways authentication process.
- New exhibit describing two ways authentication process to allow user installation is submitted with this application.
- The product remains compliant with all the applicable rules and requirements once installed in host devices according to the configurations covered by this application and host product manufacturer will be instructed to follow the approved configuration.
- Changes in the configurations indicated in this application and final compliance of the host device + modules composite system fall under the responsibility of the host product manufacturer.

Please contact me if you have any questions or need further information regarding this application.

A handwritten signature in blue ink, appearing to read "Bernie Fuller", with a horizontal line underneath.
