

Safety, Certifications and Licenses

Important Information about the DIW377 DISH:

Installation and Safe Usage Instructions

1. Place the product on a flat surface.
2. Connect the manufacturer supplied AC power adapter. The DIW377 DISH requires the use of a 12 VDC, 1A power adapter in compliance with PS2 or LPS according to annex Q of UL 62368-1. Only use a manufacturer supplied and approved power adapter. Always first plug the adapter lead into the DIW377 DISH, then the AC adapter into the AC wall socket. If you do not follow this sequence for set-up, you may get an electric shock.
3. Connect the power adapter to the AC outlet in accordance with the markings on the identification label (voltage, current, and frequency of electricity network).
4. Optionally, connect the Ethernet cable to the RJ45/Ethernet ports. Then connect the other end of the Ethernet Cable to the Ethernet port of your internet service device.

When using this device, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons including the following:

1. Do not use this product near water and avoid contact with moisture. For example, do not use it near a bathtub, wash bowl, kitchen sink, laundry tub, in a wet basement, or near a swimming pool. Care should be taken so that liquids are not spilled on this equipment.
2. This equipment is for indoor use only, do not place or install it in an outdoor location.
3. Do not overload wall outlets or extension cords. Doing so can result in the risk of fire or electrical shock.
4. The equipment should be situated away from heat sources such as radiators, heat registers, stoves, or other heat-producing appliances and equipment.
5. Care should be taken to ensure that the power cord is routed so it is not likely to be walked on or pinched by items placed upon or next to it.
6. Unplug this equipment before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning only.
7. This equipment is not user serviceable and is to be serviced by qualified personnel only. Do not disassemble this equipment. If service is required, disconnect all power from the equipment and consult qualified service personnel.
8. To disconnect this equipment from AC power, unplug the power supply from the AC wall socket.
9. Make sure the power socket to which you connect the power cord is easily accessible and as close as possible to the equipment so that the appliance can be unplugged quickly in case of a problem.

Radio Frequency Interference Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

FCC Radio Frequency Radiation Exposure Statement

This equipment complies with "FCC1.1310 for radio frequency radiation exposure limits set forth for an uncontrolled environment".

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This device produces radio frequency energy in the 2.4 GHz and 5 GHz spectrum. The antenna should be positioned to keep a minimum distance of 30cm (0.98ft) from the radiating element to any nearby person.

Federal Communications Commission (FCC) Statements

FCC ID: VW3DIW377D

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Modifications

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.
