Object: Creation variant "Fast 5260"

TO WHOM MIGHT BE CONCERNED

Dear Sirs,

Hereby, we declare that the router "Fast 5260" is a variant of the router "F@st 5260CV". This variant is created by removing e-SATA interface and one USB interface. The radio equipment's and the software of the variant "Fast 5260" are the same as for the reference product "F@st 5260CV".

See the description of the differences between "Fast 5260" and "F@st 5260CV" on the next pages.

Sincerely,

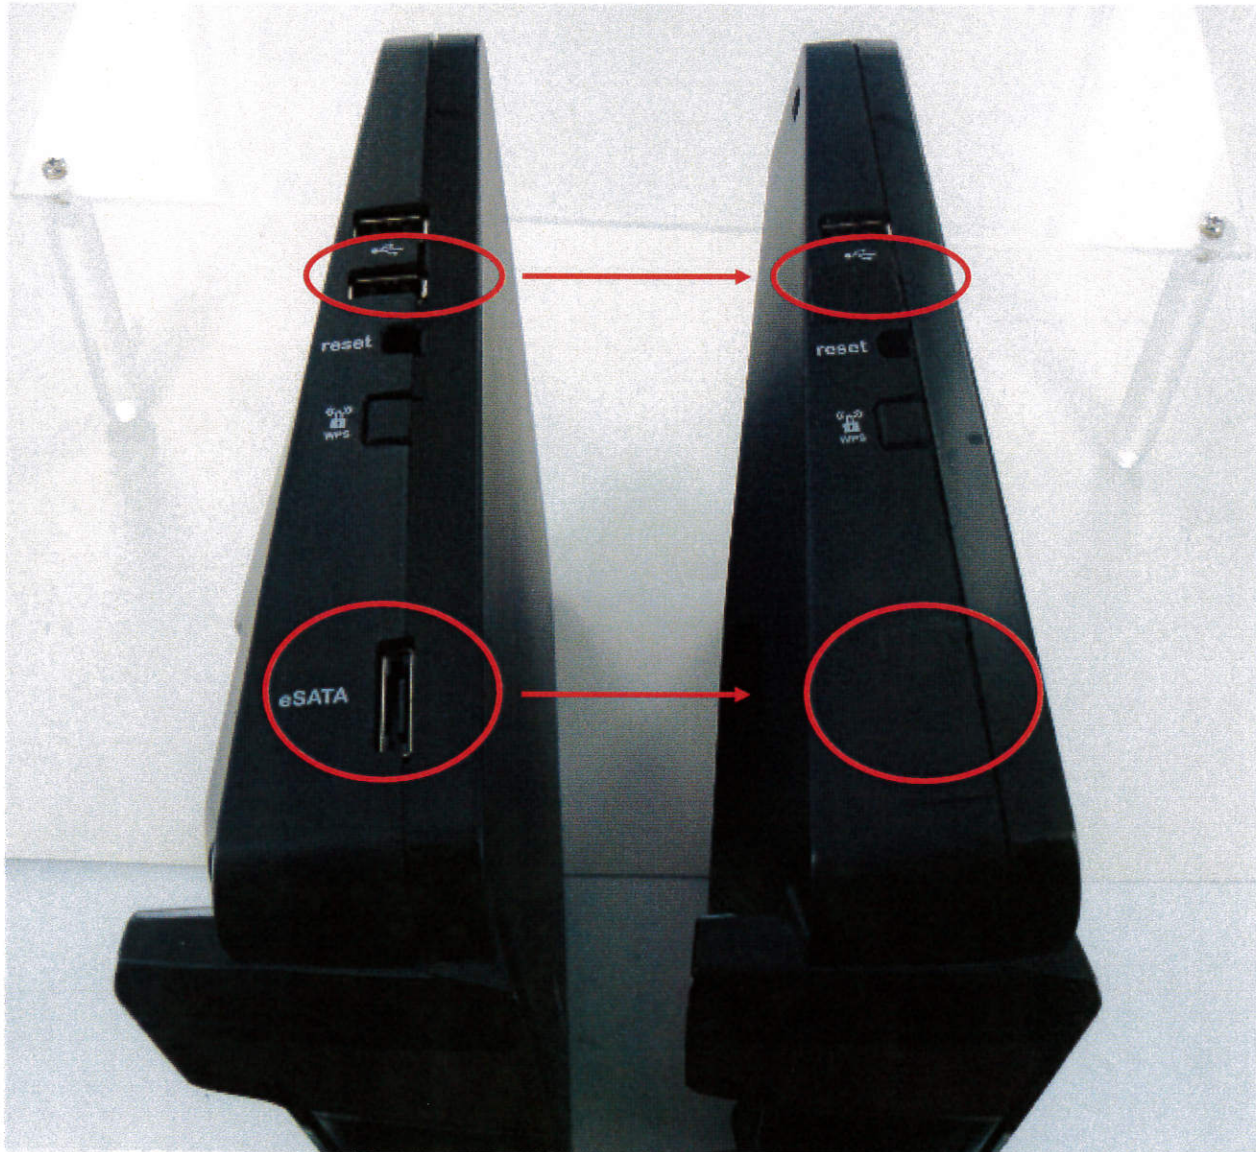

Name: Laurent GAVOILLE

Title: R&D Director
Broadband and Residential Terminals Business Unit
