exhibition.				1 • 1
A limited modular approval may be granted for single or split modular transmitters that do not comply with				
ll of the above requirements, e.g., shielding, minimum signaling amplitude, buffered modulation/data inputs, or				
power supply regulation, if the manufacturer can demonstrate by alternative means in the application for				
equipment authorization that the modular transmitter meets all the applicable Part 15 requirements under the	equinmer	nt authorization that the modular transmitter	meets all the applicable Part 15 requiremer	its under the
operating conditions in which the transmitter will be used. Limited modular approval also may be granted in				. .

those instances where compliance with RF exposure rules is demonstrated only for particular product configurations. The applicant for certification must state how control of the end product into which the module will be installed will be maintained such that full compliance of the end product is always ensured.
