

Date: June 5, 2012

Federal Communications Commission  
Authorization and Evaluation Division  
1435 Oakland Mills Road  
Columbia, MD 21046

SUBJECT: Class II Permissive Change for FCC ID: **VW3HILO3G850**

The product, **Quad-Band GSM/GPRS/EDGE and Tri-Band WCDMA/HSDPA MODULE**, has been granted by FCC dated **03/25/2011**, FCC ID: **VW3HILO3G850**.

Now we, Sagemcom SAS, would like to modify the authorized equipment for below changes:

**1. FCC HW Change description**

**From: 55.UMCMC.SGA**

**To: 55.UMCMC.MGA**

We just change the HW naming rule from the letter "S" to "M" ; "S" means early sample stage , "M" means mass production stage.

We still keep the same HW components in PCBA and no layout change.

**2. FCC SW Change description**

**From: SW version: HI3GC\_A\_000\_34\_GENERIC\_V01**

**To: SW version: HI3GC,A.001.25**

Except for the change above, no other modification is performed. Also, the change does not have any impact on the approved radio parameter such as power, frequency range, modulation etc.

We would like to certify the additional of certified FCC ID: **VW3HILO3G850** as a Class II Permissive Change in this device.

Sincerely yours,
