*To whomsoever it may concern*

## **Product Application**

This document explains the nature of intended application of the product mentioned below.

**Product name:** ZigBit RF212B

**Product Model:** ATZB-RF-212B-0-CN

**FCC ID:** VW4A091743

### **Product Application:**

The ZigBit RF212B is a Zigbit module of the Atmel AT86RF212B radio transceiver. The radio transceiver supports the worldwide accessible 900MHz ISM band.

The system is designed standard-based applications such as ZigBee/IEEE 802.15.4, ZigBee RF4CE, and 6LoWPAN, as well as high data rate ISM applications.

Sincerely,

A handwritten signature in black ink, appearing to read "Saravanakumar".
