UL Japan, Inc.  
4383-326 Asama-cho, Ise-shi,  
Mie 516-0021 Japan

Subject : Declaration about Change in identification of equipment

**Original Application:**

FCC ID : N6C-SDMAC  
Applicant : Silex Technology, Inc.  
Product name : Embedde wireless module  
Model name : SX-SDMAC  
Grant date : November 8, 2016

**Multiple Listing Application:**

FCC ID : W2Z-01000011  
Applicant : Fuji Film Corporation  
Product name : Embedde wireless module  
Model Name : SX-SDMAC

To Whom It May Concern:

We, Silex Technology, Inc., hereby declare at our sole responsibility, that the following product Embedde wireless module [FCC ID: N6C-SDMAC] granted on November 8, 2016 is the same device with Embedde wireless module [FCC ID: W2Z-01000011]. We accept Fuji Film Corporation applies the Multiple Listing Application for Embedde wireless module (W2Z-01000011) in accordance with §2.933.

HW design is changed from original application but we judged this as Class1 permissive change because of below reasons.

# Chip antenna is just replaced to U.FL antenna connector.

# Trace design is a little bit changed but pattern loss and RF characteristic are not changed.

The documents on file with FCC from the original certification remain unchanged and continue to be valid. We accept for FCC officials to use documents on file with the Department from the existing certification. This permission is accepted for the only identified equipment and it doesn't mean that we will delegate responsibilities to Fuji Film Corporation.

Thank you for your attention to this matter.

Sincerely yours,

A handwritten signature in blue ink, appearing to read "Y. Nakai".
