

American Certification Body Inc.
6731 Whittier Ave, Suite C110, McLean, VA 22101, USA

ACB:

Please explain why the FCC's DoC logo appears on the label. I do not think it should be there. (It is in the User Manual too, page 22).

Applicant:

The former TCB recommended and accepted this. Could you please accept this as it would be a big effect to change the label now?

ACB:

I can see the signed NDA for the user manual, thank you. For the photos, I can see that the cover letter states the device is only serviceable by designated technicians. Please confirm that the general public will not have access to the radar device.

Applicant:

We confirm that this device is no Consumer Device and the public has no access to the radar device.
