Dear FCC:

Product Creation Studio is the design agent acting on behalf of SafeWorks LLC. of Seattle, WA. SafeWorks is developing a climber assist system for climbing wind-turbine service ladders. As part of this system, SafeWorks is seeking original certification of the IBEX 1000 Pendant, FCC ID: W35-1000. The IBEX 1000 Pendant connects the user harness to the assist belt, senses the level of assist force and transmits this data to the IBEX 1000 electrical control box. The IBEX 1000 Pendant contains a Texas Instruments CC1101 radio transceiver that operates in the 915 MHz band. The radio is considered a portable device for RF exposure conditions.

This is the request for original certification for the IBEX 1000 Pendant as a class A digital device that adheres to the requirements of 47 CFR 15.249.

Please treat the contents of this application in a confidential manner.

Your efforts in reviewing this application are greatly appreciated.

Best regards,

Scott Thielman,
Vice President
Product Creation Studio
On behalf of SafeWorks, LLC.
