

To: Federal Communication Commission

Date: February 1, 2015

Subject: Change in FCC ID From Telit Communications S.p.A. FCC ID : RI7HE910 to SuperCom Ltd FCC ID:W5P-HE910.

To whom it may concern,

1. Supercom is using the subject Telit Communications module FCC ID: RI7HE910 in the Supercom PureCom, FCC ID: W5P-PRF-PURECOM10 (the FCC application will be submitted shortly.)
2. The Supercom device requires that the subject module transmit simultaneously with another transmitter.
3. According to the grant notes, no simultaneous transmission/co-location is allowed.
4. Supercom is applying for an FCC ID change in order to apply for a C2PC enabling simultaneous transmission/co-location with another transmitter used in the Supercom device
5. Supercom is submitting Telit Communications S.p.A 's letter stating that it agrees to Supercom applying for an FCC ID change to the subject module.

Regards

Zeev Lavi,
Project Manager
Supercom Ltd.
