Rosewill Inc.

17708 Rowland Street, City of Industry, CA 91748, USA

GUI Declaration letter

Date: 2014-07-17

FCC ID:W6RRNX-N600UB

To Whom It May Concern:

Regarding hardware protection, **Rosewill Inc** adopts OTP (one time programming) architecture to storage RF parameters, country code, product information and others. User can not modify any setting parameter to OTP. For software protection, because the operating driver has been approved by Microsoft. There exists a checking identifier with associated software package. So even the intended user modify the software the device will not work as active mode of DFS channels at all.

Thank you for your attention.
Sincerely yours,

Name: Wayne Chou
