**Request for Confidentiality – FCC**

**FCC ID: W6UER17192325N**

Pursuant to FCC 47 CFR [0.457\(d\)\(1\)\(ii\)](#) and [0.459](#) and FCC guidance published in [KDB 726920](#), we hereby request confidential treatment of information accompanying this application as outlined below.

We request the exhibits selected below as **long term confidential (LTC)** be withheld from public view permanently:

Selection of exhibits for LTC - general	Exhibit name
<input checked="" type="checkbox"/> Permanent (Long Term)	Block Diagrams
<input checked="" type="checkbox"/> Permanent (Long Term)	Operation Description / Theory of Operation
<input checked="" type="checkbox"/> Permanent (Long Term)	Parts List & Placement / BOM
<input checked="" type="checkbox"/> Permanent (Long Term)	Schematics
<input checked="" type="checkbox"/> Permanent (Long Term)	Tune-Up Procedure

  

Selection of exhibits for LTC (with NDA) <sup>1</sup>	Exhibit name
<input checked="" type="checkbox"/> Permanent (Long Term)	User's Manual
<input checked="" type="checkbox"/> Permanent (Long Term)	Internal Photos

**Justification for Long-Term Confidentiality for User manual and Internal photos:**

- Limited Accessibility:** The device in question is not accessible to the general public. It is designed to be serviced exclusively by professional, designated technicians who are bound by a Non-Disclosure Agreement (NDA) and who are trained and certified in the use and commissioning of this equipment.
- Competitive Advantage:** The user manual is being requested to be confidential under the FCC guidelines that the manual is very technical and is not provided to the general public. The user manual contains proprietary information required for trained installers to commission the DAS. The user manual will be used by the licensee or his designated technicians only. Having the subject information easily available to competitors would negate the advantage we have achieved by developing this product.

<sup>1</sup> - These items require further information to be provided to TCB before permanent confidentiality will be extended to these exhibits. Please refer to FCC [KDB 726920](#) and review section II, 3) regarding specific information (NDA) that must accompany these requests.

We also request the exhibits selected below as **short term confidential (STC)** be withheld from public view for a period of 180 days<sup>2</sup> from the date of the Grant of Equipment Authorization and prior to marketing. This is to avoid premature release of sensitive information prior to marketing or release of the product to the public:

Selection of exhibits for STC <sup>3</sup>	Exhibit name
<input checked="" type="checkbox"/> Short Term	External Photos
<input checked="" type="checkbox"/> Short Term	Test Setup Photos

Our company has spent a substantial effort in developing this product and it is one of the first of its kind in the industry. Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

When the device is marketed before the requested number of days listed above, the grantee will inform the TCB to release the Short-Term Confidentiality information withheld on the FCC equipment authorization website.

The above information contains trade secrets and proprietary information not customarily released to the public. The public disclosure of this information might be harmful to the applicant and provide unjustified benefits to its competitors. The Applicant understands that pursuant to Rule [0.457\(d\)\(1\)\(ii\)](#), disclosure of this Application and all accompanying materials will not be made before the date of the Grant for this Application.

Sincerely,

Signed by:

<sup>2</sup> - Number of days can be listed up to 180 but should not go past the date of beginning of product marketing/sale.

<sup>3</sup> - Any exhibits that may have already been requested to have "Permanent" confidentiality need not be repeated under Short-Term confidentiality request.
