April 26, 2011

Attention TCB Reviewer

On behalf of the applicant Energy Aware Technology, NTS Canada is submitting the enclosed application for the Powertab MK2 product for certification to FCC Part 15.247 and RSS 210. Energy aware have 2 different versions of its PowerTab MK2 product – a UART and a USB version which are being submitted as a family listing for Industry Canada as the differences which are explained in a separate letter exhibit are related to the digital functionality. The ID numbers requested in this application are FCC ID: W72-PTMK2 and IC: 8253A-PTMK2. Please do not hesitate to contact me with any questions or clarifications

Sincerely,

Glen Moore
Wireless/EMC Manager
NTS Canada
