**Re: Change in identification of equipment**

To Whom It May Concern:

This change in identification of equipment request applies to the original FCC ID: 2ANPO00NRF9160 and IC: 24529-NRF9160 granted on June 6, 2019 and Sept 29, 2020 respectively. The equipment bearing the modified identification FCC ID: W77G6C1 and IC: 8255A-BLG6C1 is electrically identical in design & construction to the original equipment. Therefore, the original test results continue to be representative of and applicable to the equipment bearing the changed identification.
