Re: Permissive Change Authorization for RF Exposure Evaluation

Gentlemen:

We, Warn Industries, Inc. have been authorized by Microchip Technology Inc., to apply for Class II Permissive Change for their module FCC ID: W7OMRF24J40MDME. The purpose of this permissive change is to demonstrate compliance with RF exposure limits when this module is implemented in our winch control end products.

Sincerely,

A handwritten signature in black ink, appearing to read "Lawrence Rentz", written over a white background.

Lawrence Rentz
Vice President of Engineering
Warn Industries
